1.3(a)(4)

on straight line to Sokol'niki instead of Great Circle Route. At end of line got off, visited old church to left of direct line from Sokol'niki Metro Station, then proceeded to Sokol'niki Park and strolled about. Saw Amer. Exhib. Fuller building which fenced off, then returned to Sokol'niki Metro Station for trip back to town. After studying map on subway car, decided to get off at Okhotniy Ryad and on exiting had choice of Pushkinskaya St. or Smolenskaya Ploshchad. Went out on former, stopped men's room just up street from subway and went on.

2. COMPASS hasn't a map so can't retrace his steps on paper. It shouldn't be too difficult to trace. Up Pushkinskaya--this wasn't planned as my last letter should indicate--subway errors and the choice put me on Pushkinskaya--and the stores are as indicated by our friend. Didn't spot the doorway but the meat store has an entrance on Pushkinskaya (P. from now on). It isn't used, so far as a quick glance would tell. The ladies' shoe store is there on P. Across from the meat store is a book store where COMPASS looked around for ten minutes. Then he went down the sidewalk into the meat store.

Part 3 Sketch

4. COMPASS continued on passing Kvartsky station and entered a square where the Gogol statue is located. A Militieman put me on the road to the Embassy on, COMPASS thinks, Arbatskaya. Passed Sudanese and Hungarian Embassies on the route--by the way, this is all on foot!--and a check with a second Militieman sent COMPASS straight ahead to the end of the street to take left towards the Embassy.

5. Taking left then, passing the Embassy, COMPASS entered a barber-shop on a corner but it was too crowded so exited to continue on to America House. Stayed on left side of street in direction of Embassy.
