

Date: 17 March 1969

MEMORANDUM FOR: AFPDC

SUBJECT : Results of Photo Comparison
Case No. 10,145 Capt. Kurt C. McDONALD

REFERENCE : DIA/AP 305 2-68-INT
Photo No. 18, 20, 29

1. The following report contains the final technical results of the comparison between the unidentified photo and the enclosed photos submitted by your office.

2. The overall head shapes appear to be similar in all photos. In photo #18 there seems to be a slight temporal recession which McDonald does have. The outstanding difference in photos 18 & 20 and the photos of McDonald is the ear shape and size -- McDonald's ear is a small, nearly round ear and standaway, while the ears in 18 & 20 are larger and tend more toward the oval shape. The nose in photo 18 compares favorably in size and shape with McDonald's. Again, in photo 29, there is a difference in ear shapes.

Overall, there is insufficient visible evidence in all three POW photos to make a legitimate comparison.
