MEMORANDUM FOR: AFPDC

SUBJECT : Results of Photo Comparison  
Case No. 10,022 Glendon L. AMMON

REFERENCE : DIA/AP 365-2-68-INT  
Photo No. 45

*310 DTB 14 FEB 69*

1. The following report contains the final technical results of the comparison between the unidentified photo and the enclosed photos submitted by your office.

2. Possibly. Not enough features are discernible in Photo #45 to make a good comparison here. However, Ammon has features similar to those that can be seen, i.e., eyes, nose and chin. Because of Ammon's facial expression in the picture submitted by NOK we cannot determine whether his caliper lines and possible chin cleft would be similar to the POW.
