

6 February 1970

Lt. Comdr. William Covington

11,239

XXXXXXXXXXXXXXXXXXXX
attached

Lt. James D. Hunt:

Within the considerable limitations of the physical evidence in the enclosed photographs, the following general comments can be made: the rounded skull structure, the relatively thin and close cropped hair, the apparent likeness in hairlines, and the protruding ears are all evident in the before and after photographs.

Although this is insufficient evidence for a positive identification, the general similarities cited above place Lt. Hunt in consideration as a possible candidate for the subject in the after photograph.
