MEMORANDUM FOR THE RECORD

MEMO Case No. 94-157

SUBJECT: ITT/CIA/Chile Matter

48

The legality of certain of the matters surfaced in the memorandum to the Inspector General from [redacted] dated 5 September 1974 has been studied by the offices of General Counsel and Legislative Counsel. To date, I have been advised by my General Counsel that the study has resulted in no finding that there is clear evidence of perjury or other crimes. Accordingly, I have decided not to refer any of the matters discussed in that memorandum to the Attorney General at this time. The study of these matters will continue and a final decision as to whether referral of any of these matters to the Attorney General is necessary will be made whenever clear evidence is available of any criminal conduct. I am also reserving decision at this time as to whether any of these matters require being brought to the attention of any of the congressional committees or OPIC.
