

MONTHLY REPORT
NHA - TRANG
FEBRUARY 1970

GENERAL

Continued routine problems and a quiet month during February. A decrease in revenue block time flown relative to January due to the Four day "TET" holidays.

The city of NHA TRANG remains "off limits" to all military personnel. This situation has continued from before "TET" and there is no indication that it will change. The reasons for this appear to be both economic and military.

TRAFFIC

As stated, a decline in all phases was experienced this month due to the "TET" holidays. This situation is outlined in the included statistics.

CUSTOMER RELATIONS

Mr. B. KYKER, the 7002 Air Operations Officer returned from a tour of reserve military duty while Mr. W.F. SPARKS, the 7001 Air Operations Officer has assumed the temporary duties of Assistant Director of Administration for Cords in NHA. Mr. T. LILLY replaces Mr. SPARKS. Relations remain unstrained and good.

OPERATIONS

A. The major accomplishment this month was the restoration of communication service via the remote Motorola unit and the switch-over to the new antenna. This switch-over was accompanied by a remoting of the transmitter equipment to the new location. This has eliminated XMTR feed-back into our RCVRs.
