14 <sup>111</sup> Moonshine has a pinpoint near two <sup>contacts</sup> ~~safe houses~~ in the region of Bad-Tolz South of Munich. <sup>a region in which he himself has actually lived for a considerable time</sup> The ~~actual~~ <sup>probable</sup> pinpoint for him has not definitely been decided but in ~~concrete~~ conversation he has stated that he <sup>has visual knowledge of several fields</sup> ~~known~~ <sup>points</sup> where he <sup>might</sup> ~~could~~ be dropped nearby. His ~~two safe houses are first~~ <sup>His first and last contacts are</sup> ~~local~~ <sup>local</sup> ~~clergymen in~~ <sup>his second</sup> ~~in whom he has absolute confidence and secondly, a Swiss doctor in whom he~~ <sup>To use on a more restricted basis.</sup> has a little less confidence ~~but~~ whom he intends ~~none the less to use.~~ Moonshine is a well known engineer ~~\_\_\_\_\_~~

~~\_\_\_\_\_~~ (B)(1)  
(B)(3)  
C  
It has so far been decided in conversation with myself and Robert ~~\_\_\_\_\_~~ that he would feel more at home with his own identity rather than with a completely false set of papers. Those people who know his physical appearance will be aware of him even though he has false papers and goes under a false name.  
He has on hand a Deutscher Reisepass and a Fuhrerschein. He would like to have over and above this, an Ausmusterungsschein on the grounds of his physical disability and a Wehrpass if this is necessary. His weak physique would on the face of it make absence from the Wehrmacht plausible. His chief desire in the way of a paper is the so-called Speer ~~\_\_\_\_\_~~ some 1,000 of which are issued to prominent engineers in various ~~\_\_\_\_\_~~ firms working for the German ministry of Production of which Speer is the minister (hence the name). London has informed us that they have no samples of the Speer Ausweis. Only two men are known by Moonshine to have it in Strassburg, both of whom are interned and have not been

located. We are still making every possible effort to locate this. On the assumption that we have not been able to find a sample of it, Moonshine should be given, and his professional competence would justify it, a circulation pass such as is given to the top engineers in various large industrial concerns such as the Herman Goering Werke, BMW, Messerschmitt. This document should provide him with the means of travelling around without having to produce a Bescheinigung.

Besides a set of documents in his own name, he would like a complete false set of papers which would include a Kennkarte, wehrpass and a personalausweis either as an employed engineer in the German railroad or again in a big factory. This document should give him rank of such importance that he should be able to travel quite easily on the document, again obviating the necessity of getting a Bescheinigung.

He cannot go to the Konigsee region where he was only a year ago because he is well known there and because he was warned that the Gestapo were aware of his anti-Nazi ~~attitudes~~ feelings.

#### COMMUNICATIONS.

He should be given Joan and Eleanor training and use this as a regular means of communicating with us until and if a radio operator can be sent into him. Over and above Joan and Eleanor training, if it is possible to arrange he should be given a brief solo course in SI work in Germany. The reason for this is that the man while brilliant has, as he stated, led an abstract life and because of his unworldliness due to his sincerity and honesty is not aware of the little tricks of intelligence work.

While in London Moonshine should be introduced to the Target group working in R & A for the 9th Air Force. He has great knowledge of the large manufacturing plants of Southern Germany and electrical power systems on the basis of which he could contribute up to date and highly pertinent information.
