SUBJECT: Production of Electric Power Generators in
Selected Communist Countries

REFERENCE: Your Memorandum S-0006/DRD/B, 22 June 1967

Our current estimates of production of electric power generators in communist countries during 1965 and 1966 follow. They refer to total national production in each country. It was not possible to limit the estimates, as requested in reference, to production of generators having a capacity of 1,000 kilowatts or more manufactured in plants having an annual output capability of 50,000 kilowatts or more.
