THROUGH:

List of prison camps in USSR economic regions IV, V, and VI.
(ORR Project S-216)

In compliance with your request we have compiled a list of prison camps located in economic regions IV, V, and VI. The list includes all those camps that we have been able to identify as having been in operation at any time during the period 1950-56. The list was prepared, in connection with work on a larger project, from an examination of approximately 3000 reports from ex-prisoners of war and other returnees from Soviet prison camps.
