MEMORANDUM FOR: Mr. B. G. Batten  
Aeronautical System Division  
NASA Langley Research Center

SUBJECT : Data on Soviet Trade and Tourism

1. The attached tables provide the information you requested at our meeting on June 11.

2. The Soviet aircraft exports represent all exports - it was not possible to break down exports into those for CEMA countries and for the West. In addition to the data provided in the table on Soviet tourist traffic, we estimate that net Soviet tourism earnings were \$140 million in 1974 and \$115 million in 1973. Data received since publication of the USSR: Long-Range Prospects for Hard Currency Trade given to you put Soviet hard currency exports in 1974 at \$7.63 billion and imports at \$8.54 billion. These figures replace the 1974 estimates for the merchandise trade account in Table 3.

3. All the information is unclassified. Please call if additional information is needed or if you have any questions.
