9. Mr. Wisner referred to a recent cable from Guatemala City reporting the arrival of 500 armed men from the interior for use by the Arbenz forces. He asked that a check be made on this report and [] Barnes replied that a cable of instructions had already been sent by LINCOLN to the Station.

10. LINCOLN situation report was read by []

11. [] submitted a plan to accuse the Soviets of having cached arms off the coast of Nicaragua by Soviet submarine. Plan was approved. If the operation succeeds, as a second step Mr. Leddy is to ask Mr. X what he may know about such caches in Guatemala.

12. [] presented the political program which had been requested at a previous meeting. He said this program had as its slogan "The Cross and the Quetzal". It was built around Roman Catholicism in Guatemala and gave the people something to be FOR. There was not time to read this program at the meeting. Mr. Wisner instructed Mr. Barnes to give a copy to Mr. Leddy so that it would be cleared by State before finally approved.

This completed report by Col. King. Mr. Wisner then said that he had seven points on his list, several of which had been at least partially covered, but that he would like to enumerate them anyway.

(1) Santa Fe. Is there anything at this level which might be done to assist [] in laying on the arrangement with CAA and the Weather Bureau? Action: Barnes to []

(2) The political program. Be sure to check it with State. Action: Barnes to Leddy.

(3) [] There should be a full-dress presentation of his mission on his return to Washington.

(4) Deception. Plans should be submitted for deception as to the time of the operation. A document, for example, might be prepared which would mislead the Guatemalans. Decoy: We should think of having a sitting duck, such as Trujillo.

(5) Guatemalan Ambassador to [] The approach this Ambassador made while in Washington should be followed up by an unwitting agent in [] who could cultivate and develop friendship with the Ambassador. Action: []

(6) ☐ ☐ said he was having trouble getting a senior VI officer to replace ☐ ☐ and ☐ ☐ He asked for ☐ ☐ Col. King said it would be much easier if ☐ ☐ would merely state his requirements without indicating a special individual. Mr. Wisner said that it is better to merely state requirements so that the selection may be Agency-wide rather than limited to WH Division. Col. King said he would assume the responsibility for getting an officer who would meet ☐ ☐ specifications, but that it would not be possible to assign ☐ ☐

(7) ☐ ☐ brought up the advisability of replacing ☐ ☐ in El Salvador. It was stated that this might be a subject for discussion with the new Assistant Secretary of State, Holland.
