MEMORANDUM FOR THE RECORD

SUBJECT: Intelligence Exploitation of PBHISTORY documents.

1. Copies of most documents are forwarded to State and USIA as received and as selected by their representatives.
2. Documents of possible interest to FBI are selected and forwarded together with RI name check information.
3. Documents of possible immediate intelligence or operational interest are circulated to interested desks.
4. Documents of possible interest to STC/ICB and to IOD are selected and circulated to them.
5. Representatives from Biographic Register and Training Division reviewed samples of the documents and were given some duplicate materials.
6. An index to the documents is to be prepared and circulated as a CS report giving library call numbers so that anyone interested may obtain a throwaway thermofax copy of the document. Possible interests of OCI, OSI, ONE, IP and OPR as well as the other components of CIA mentioned are expected to be served by this index.
7. The documents will be sent to FDD for reading against the reading requirements laid on them by various government agencies, and FDD will make pertinent translations and reports.
8. The documents will be sent to RI for carding, classifying, and or indexing, and for final filing and storage.
