Chief Admin., DD/P

LINCOLN

Per Diem Claim, Mr. []

1. I regret that I was unable to either discuss the attached with Mr. Dulles or to return it to you before I left on Wednesday, 9 June. Although I did see Mr. Dulles, there were so many subjects to discuss and he was so busy that I never had a chance to bring this particular matter to his attention.

2. I did however mention it to Frank Wisner and explained to him the problem - namely, that Mr. Dulles' approval is necessary. I would like to see the money paid to [] if it is in any way possible. I have talked to him here at LINCOLN and it is his recollection that he was told that he would receive reimbursement for the expenses outlined in his memo which is attached. He believes that he first obtained this impression from a statement made by [] after a conference with Messrs. Wisner and J. C. King and following which he understood [] went and spoke to [] Moreover, sometime during December [] of WH told him that his per diem was being started on 9 December which includes the period in question. He therefore was under the impression that the matter had been satisfactorily resolved.

3. Anything that can be done will be appreciated.

WILLIAM D. FLAYDON
