GREEP

Your letter D.1870, of 29th November:

1. The method outlined by you in order to give us a quick reference to the position of GREEP stocks seems to be a very satisfactory one, and we should like to commence working along these lines at once.
2. In your para. 4 you suggest that 7408's weekly telegram should be repeated to us, and then confirmed in a bag letter. We think this is an excellent suggestion.
3. We note you will send us details of any local purchases you have made by bag letter.
