Memo No. 410.

From: 7404/7417.

4th December, 1944.

Under separate cover I am forwarding you a small wooden case which contains wireless valves. These have been requested by Corn and have been purchased locally. They should be sent through to him as soon as possible.

This consignment is a "local" Creep consignment and should be shown as such in your records, as you may from time to time in the future be making certain local purchases which are going in as Creep operations and which should figure in our Creep records.
