Your Memo No. 389 of 28th November.

Thank you very much for your memo and particularly for the promptness with which you answered with your telegram 0301. Your telegram was exactly what was required.

With reference to your query as to "when goods have reached the field", this you can assume to be "when goods have been handed over to a contact boat", as I fully realise it is often a question of days and maybe weeks before you receive hard confirmation that material is in the hands of Com.
