Investigation has been initiated of a subversive organization among Ukrainian V.P.'s, the "BANDERA" gang - this organization is partly concerned with petty crime, but also with nationalistic, anti-Soviet, anti-American, anti-Semitic propaganda, and according to an unconfirmed report also gathers military information which it sells to the Russian, despite their political antipathy. The organization has widespread branches. Its personnel includes former SS members, both Ukrainian and German, and former members of the UPA (Ukrainian nationalistic partisan organization among Ukrainian slave labor groups during the war.).
