Your Role at the CNII

I. Introduce yourself

II. Guide Group through the Agenda (as follows)

A. Counterdrug Architecture

- You can begin by introducing You can say that you have recommended to the DCI that be our designee for Deputy Director of the CDX Staff. brings the highest degree of professionalism and solid counterdrug credentials to this position—

- You can then introduce as the Intelligence Community's focal points on the architecture review and say that they will discuss our progress thus far and plans for the immediate and medium term.

B. Global Heroin Treat Assessment

- You can introduce CNC's senior analyst, who will review the interagency project underway to produce a Global Heroin Threat Assessment, a study which you view as critical in helping guide the intelligence, law enforcement, and policy communities in their efforts to understand and combat the threat from heroin.

C. National Threat Assessment effort for 2000

- You introduce and say that he will provide an overview on the need for a National Drug Threat Assessment and an idea of the timeline we envision following for its production.
- will speak and then will introduce from NDIC, who will review the role of his agency in the domestic portion of the National Drug Threat Assessment.
- Then with a rundown of the international side of the assessment.

(CONTINUED)

D. Colombia Update

- You can say that the complex and interrelated problems in Colombia continue to engage us all and promise to stay on the front burner for the foreseeable future, particularly given new policy initiatives in the works.
- You have asked [redacted] the Chief of CNC/Ops and the DCI's pointman on Colombia, to provide an intelligence update on Colombia to review what we see as the priority counterdrug issues.

Counterdrug Architecture

*will provide us with the points
he plans to make and they will be inserted here*

Background: Progress on Worldwide Heroin Threat Assessment

will cover the following related the Heroin Threat Assessment:

The interagency Worldwide Heroin Threat Assessment is on track to meet its end-of-year intended publication date. The research has been completed and the drafting has begun. Key findings and judgments will be ready for briefing at November's Linkage conference.

The study will address:

- heroin abuse trends and patterns in the United States;
- sources of supply for the US market;
- the extent to which other foreign markets are a draw on supply;
- and the dynamics and variable factors of the heroin trafficking industry in each of the major source-and-transit regions.

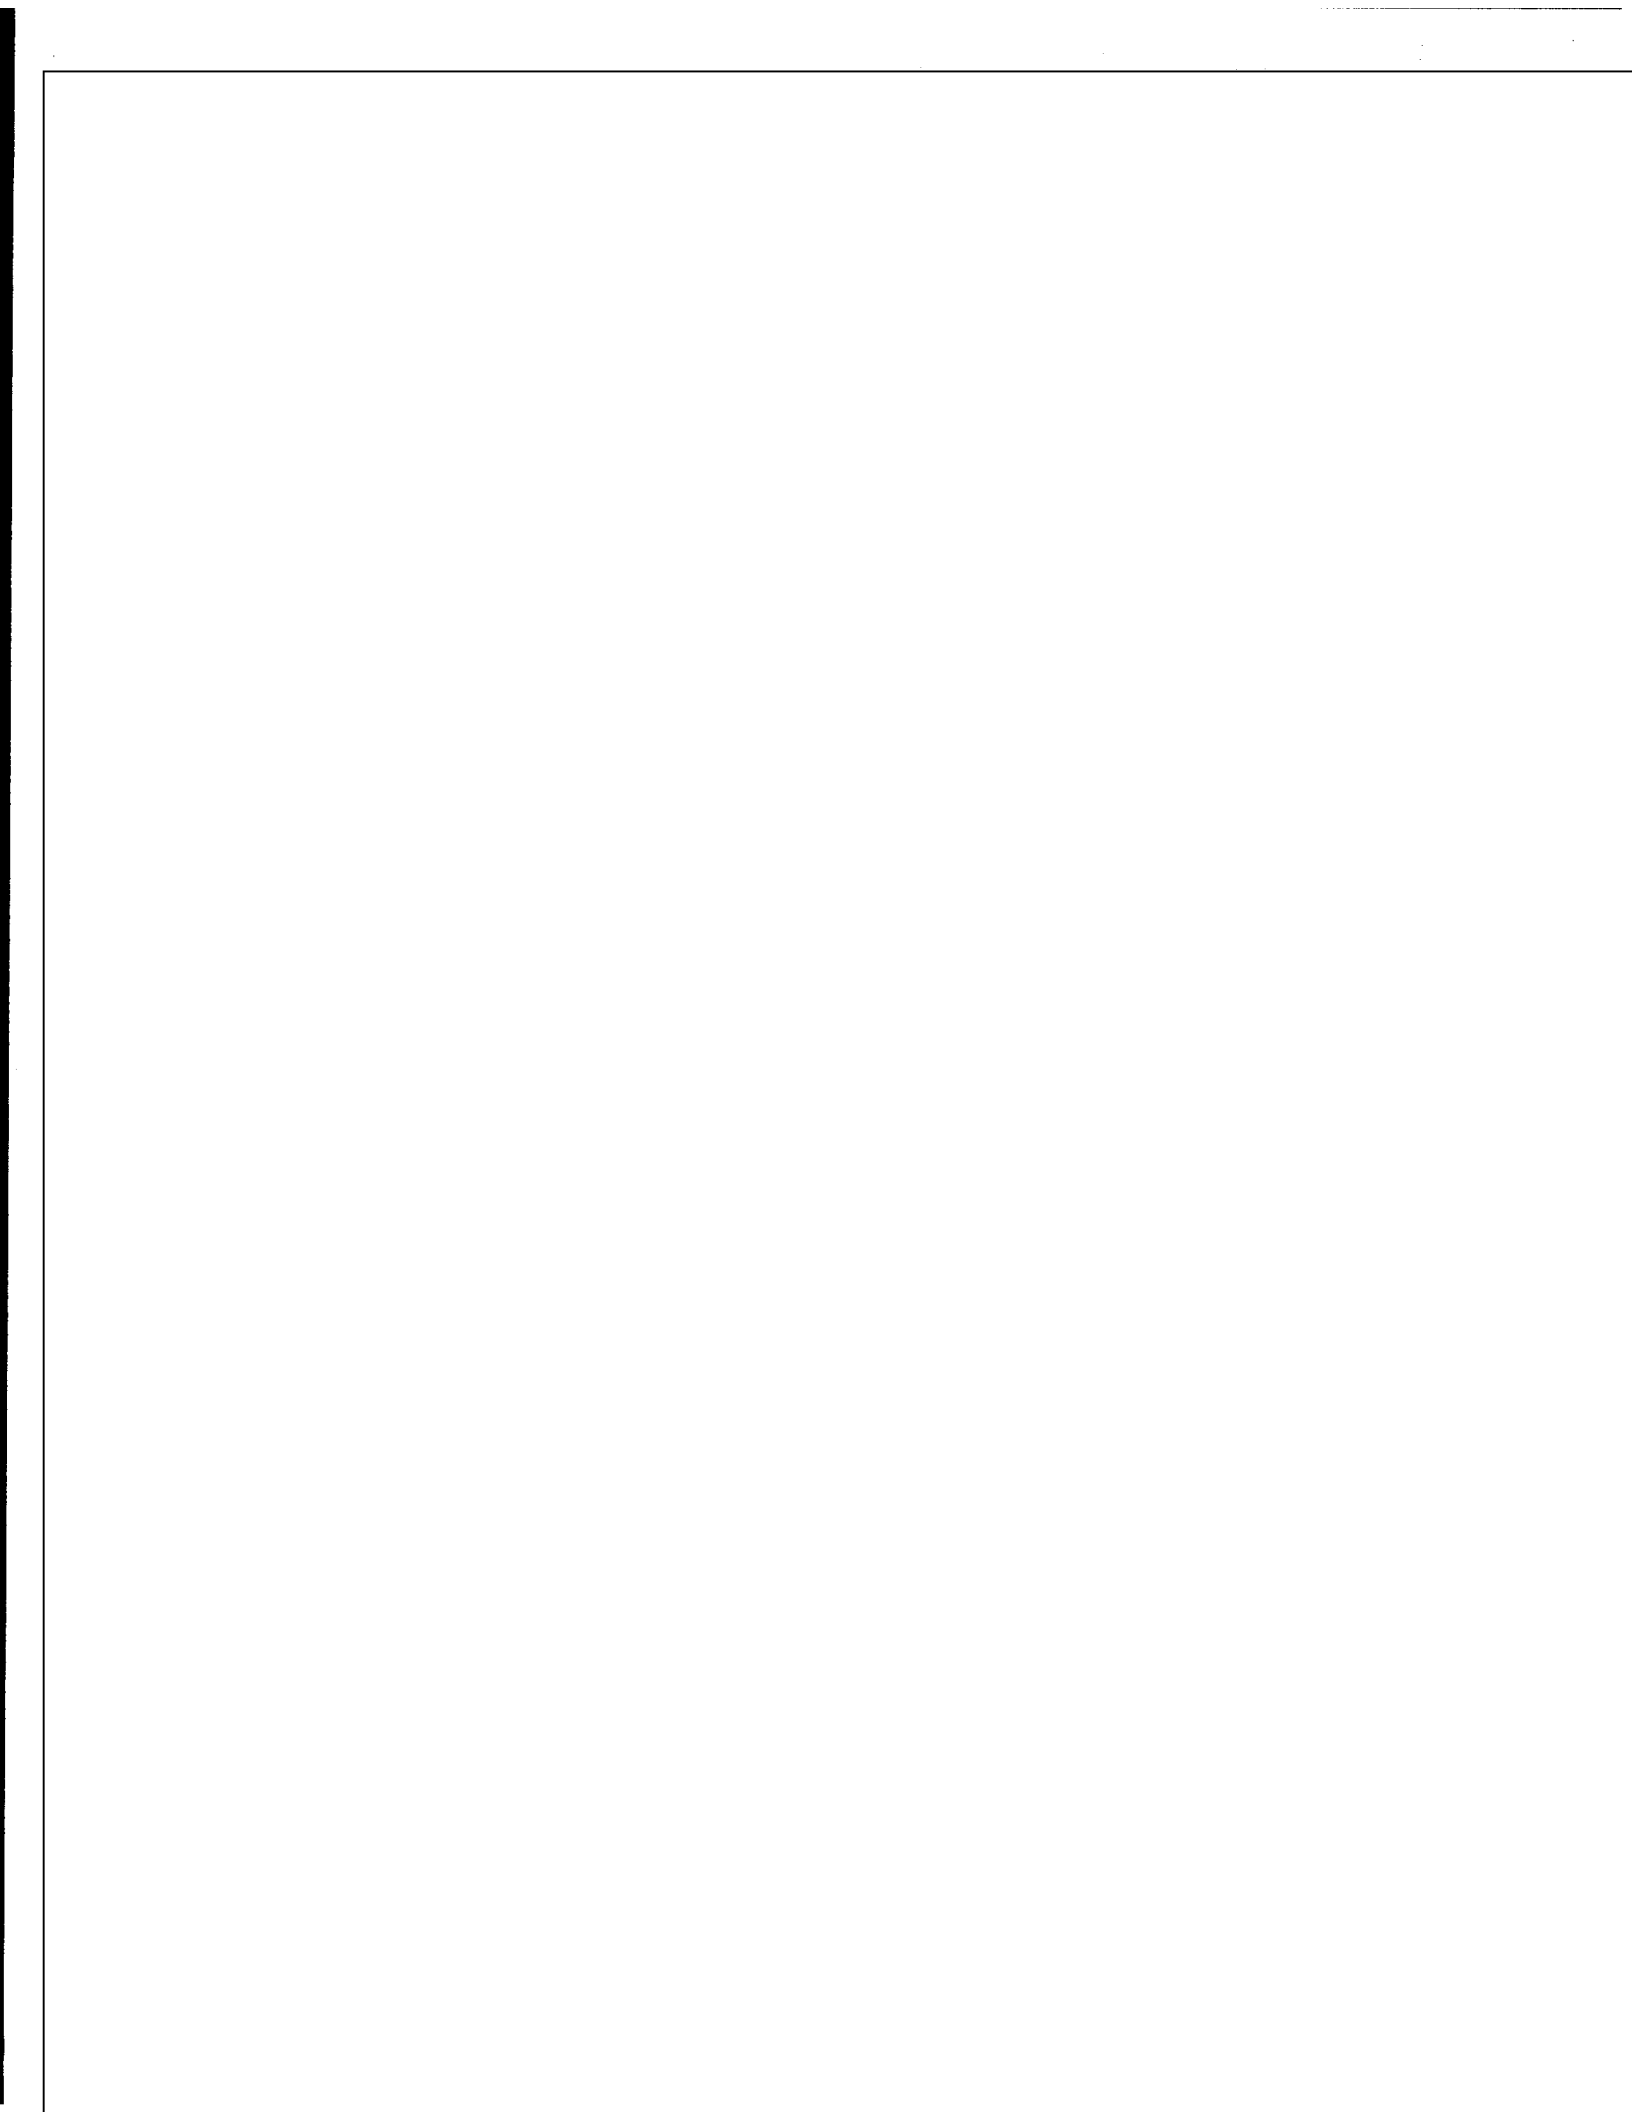

[redacted] **Background: National Drug Threat Assessment For 2000**

[redacted] Deputy Director NDIC will attend the CNII in [redacted]

[redacted] **He is prepared to be introduced by you and asked to give a rundown of NDIC's role in the threat assessment process for the coming year.**

[redacted] NDIC will probably say that they will prepare an interagency National Drug Threat Assessment that looks at narcotics demand and domestic trafficking trends in the United States, including societal consequences--such as growing drug abuse in the suburbs and rural areas, increasing gang violence.

[redacted] will then discuss CNC's role in the assessment process. He will say that we will prepare an interagency global threat assessment that looks at production, consumption, and trafficking trends worldwide--with particular reference to the United States as the target. We are aiming for end-of-February deadline to feed into the certification process.
