

MEMORANDUM

November 4, 1944.

For: 521.

Re MAURER.

I find that we have been working with this man for many months and have some time ago cabled to London for the necessary papers for him. We have also given him some money to buy clothes and equipment. According to word reaching us, he did not take the initiative in approaching anyone else, but was approached by someone of your organization in Lugano, to whom, I understand, he told that he was already working with us.
