Summary of Changes to GeoScout RFP Amendment 4

Section L:

Cover Page: change date to January 22, 2003 (Amendment 4)

Page 12, L.10.3 Changes underlined and Bold:

(c) Page Limitations

Page limitations for each volume are identified in paragraph (a). Page limitations include charts and graphic material. The title page, table of contents, a list of acronyms, glossary of terms, cross-reference matrix, and the 11x17 paper containing the data columns of the Master Program Schedule do not count toward the total page count of each volume and with the exception of the Master Program Schedule, will not be evaluated. Classified information for a particular volume that is included in Addendum 1 to the Cover Letter/Offer shall count towards the page limitations for the volume it references. Pages not in the page count shall be numbered with Roman numerals (i.e., iv).

(d) Proposal Page Format.

(d-1) Format: A "page" will consist of print on one length of 8 1/2 inch by 11-inch paper. Paper printed on two sides will count as two pages. In accordance with the clause at 52.204-4, NIMA encourages the use of two sided printing and reproduction. Foldouts (except for the 11x17 Master Program Schedule data columns) shall not exceed 10% of the total volume page count for any single volume. Each 11X17 foldout page (except for the 11x17 Master Program Schedule data columns) shall count as two pages single sided and four pages double sided, against the page limitations. Page margins will be a minimum of 1 inch on top, bottom and each side. Volumes I and IV (Cover Letter/Cost Volume) are exempt from the 1-inch margin rule for mandatory forms, boilerplate, and exhibits that are pre-formatted and do not conform to the 1-inch margin requirement, but will be considered in the page count as specified. Partial pages count as a full page for page limitation purposes. All pages within a page-limited section shall be consecutively numbered, starting at page one, and shall not exceed the page limitation.
