1. As of summer 1954, a large Soviet naval arsenal was observed at the railroad station of Burmakino (N 57-25, E 40-14), on the north side of the railroad line between Yaroslavl and Nerekhta. Stored at this arsenal are naval weapons, shells, mines, optical instruments, and other supplies. Artillery shells and mines are also assembled here. The large area occupied by the arsenal is entirely enclosed by a fence.
