**Subject:** Incorrect markings on Food menu

**Feedback:** Hello -

This is the second time I saw a vegetarian menu item listed, but found meat in the food. It is the [Redacted] cafeterias. I have found it in. Once was veggie chili, but actually had beef. Today was the corn chowder, listed as V, but seems to have bacon in it. This can be serious to those of us with food limitations.

Would appreciate correct markings in the menu.

Thank you.
