Argentina

Fourth Prisoner List. On February 24, the Argentine Government published the names of 511 state-of-siege prisoners being held near Bahia Blanca, about 300 miles southwest of Buenos Aires. This is the fourth in a series of such lists begun on February 3. To date, 2,431 names have been published, leaving about 1,200 persons to be identified before the government fulfills its commitment to release the names of all persons being held by the executive branch.
