Latvian Emigre Leaders Said to Help Recruit Spies

...In organizing espionage against the Latvian SSR, the intelligence services of the countries of the imperialist camp make wide use of Latvian emigre centers which are supported by these intelligence services. The leaders of the Latvian emigres in the West are the worst enemies of the Latvian people, having sold out their interests to the bourgeoisie during the years of the so-called "independent" Latvia and, later, to the Hitlerite butchers during the Great Patriotic War. Now, they serve the American, West German, and other monopolists' body and soul.

Colonels Janus and Osis of the Hitlerite SS troops, former Major Handers of these same troops, Professor Lajins, lawyers Abakus, Gilde, Lod Bruce, Archbishop Grinbergs, bishops Runcans and Slokan, and other ideologues of Latvian bourgeois nationalism in emigration have created various nationalistic organizations in the US, West Germany, Sweden, and a number of other countries, under the widely-publicized mask of rendering assistance to the ordinary emigres, who were taken in by them. In reality, the intelligence services of the imperialist camp, with the help of the emigre leaders, select spies who are to be smuggled into the territory of our republic from these organizations (Daugavas Yuzagi, the Latvian National Council, etc.)

Representatives of Free Latvia Do Similar Work

Similar "services" are rendered to the ruling circles of the countries of the capitalist camp by the so-called "ambassadors" of the Latvian bourgeois state, which has not existed for 30 years -- Opkins in the US, Lisplins in West Germany, Zarins in England, and some others, all of whom represent nobody. These living corpses exist only because they are maintained by the ruling circles of the US. It was none other than President Eisenhower, who proclaimed a so-called "captive" nations week last year. It was none other than Secretary of State, Harbar, who made a statement casting aspersions

on the peoples of the Baltic republics, including the Latvian people, in February 1960. Demanded by all this, the Spetsnaz, Sauris, Sauris, and others like these involve post-and-ride endures in espionage and other subversive activity against our republic. Broderick, Sauris and others, spies who have been arrested in Soviet Latvia, and who are known to you through materials published in the press, were victims of this deception. Caught red-handed, the spies got what they deserved. But the Sauris, Sauris, and Sauris spare no efforts in searching out new victims from among the endures to carry out espionage work.

Soviet Latvians Asked to Expose Endure Leaders in Letters

The espionage and spying work of spies is very important work, of course. But it is even more important relentlessly to expose the treacherous nature of the Latvian endure leaders. Citizens of our republic, who have relatives who have endures, and, in their letters abroad, show the need worth of these leaders, thus making it impossible for them to involve work, deceived people in the filthy, criminal work of the intelligence services. Useful work has been done in this direction by G., a representative to the leadership. During the first post-war years, he was a member of the "Thomas Young" organization and worked in a number of other endure organizations, until he became convinced of the uselessness of the Sauris, Sauris, and others like them. Making a correct appraisal of the situation, G. unmasked the endure allies.

Workers Begs Investigation of Foreign Republics Repressive Regime

The endure bosses and judges and road journals into the republic. Some of our citizens do not understand that they are spreading before the endure leaders what they know, in the form of these journals, revealed says either already from G., or through their endure relatives. Do we not have enough to unmask all of a journal's model? These journalists who are privileged in respect to our endures, as talking the Latvian end, say that we have enough of everything. What is the purpose of this charity? This flagrant the honor and dignity of the Soviet citizens.

The person spreading the journals, at times, even say that like consideration that they had to be gradually be known that contact with representatives of intelligence services. The Sauris says that, at the right moment, they can demand recognition of "good terms" in the form of espionage work from some representatives of the journals. That this is actually so was confirmed by many other than

has been recruited by a capitalist intelligence service and who gives himself up, if he has done nothing to perform the tasks given to him, will be released from criminal responsibility. In the USSR, it is stated: "A citizen of the USSR, who has been recruited by a foreign intelligence service to carry out hostile activity against the USSR, will not be subject to criminal responsibility, if he has not taken any action in performing the official tasks given to him, and if he voluntarily tells the authorities about his ties with a foreign intelligence service."

This law is evidence of the extreme humaneness of our government; let people who are engulfed know about this. Citizens who have friends and friends abroad can report about this in their letters to them.

Great political vigilance has always been an inherent quality of every Soviet person. Such an every-lingering of foreign intelligence services has been broken up by this vigilance and by the indisputable devotion of our people to the Communist Party and the Soviet Government. This is now in the past, and thus it will be in the future. -- Dr. Yevgeny, chairman of Committee for State Security under the Council of Ministers Sovietian SSR.
