Items for Discussion with the President

1. ✓ You will, of course, want to discuss at greater length your China trip. In that connection, you should discuss extending the trip to include Indonesia and the Philippines.
2. ✓ You will also want to discuss your negotiations with the Israelis regarding the dates for the Rabin visit.
3. ✓ You may wish to discuss briefly the economic summit. We have not yet heard from Giscard in response to the President's second letter about Canadian attendance. Rumsfeld told me today that the President wants to take only minimum staff with him on that trip.
4. ✓ It might be worthwhile to discuss whether or not Mrs. Ford wishes to go to Florida for the meeting with Sadat. It is my understanding that the President is now thinking of taking Mrs. Ford and staying overnight Sunday night. However, I have the impression that Mrs. Sadat is not enthusiastic about going to a dinner on Sunday and that she really prefers to go to Disney World. Also Governor Askew would prefer having a stag dinner.
5. You probably will not have time to discuss it this morning, and you will not have had a chance to review the paperwork thoroughly, but we have an urgent problem on security assistance and Lynn's desire to make cuts in the FY 76 security assistance budget. We will have to send the budget figures for the Middle East and Greece/Turkey to the Hill on Monday to avoid having to introduce those figures on the floor of the House.
6. I am sure you will be discussing Schlesinger further.
