Dear Guido:

Many thanks for the copy of your dissertation.  
I am glad to learn that I played some role in  
its birth.

I am afraid that I will probably be in California  
at the turn of the year, and so will miss you  
while you are in Washington. Let's hope for  
another time.

I gather that Peter Rodman has been in touch  
with you about that most intractable of prob-  
lems. Perhaps if the two of you solve it, we  
will give you Vietnam.

Warm regards,

Henry A. Kissinger
