This Contract is comprised of multiple Contract Line Item Numbers (CLINs) of varying types. Various portions of Section B of the contract are applicable to specific CLINs. The total contract Value inclusive of all CLINS is

# CLINs 1.2, and 3 (CPFF/LOET) Section B-1. CLINs 1. 2, and 4a (CPAF/LOET) Section B-2 - B-4:

- (b) The Contractor shall expend its best effort towards accomplishing the Scope of Contract work outlined above.
- (c) Level-of-Effort for Base and Option Periods:
- (1) The level-of-effort required for the base period is defined in the table below. The estimated composition of the total labor hours for the base period is as follows:

	Base Year
CLIN 1 – Program Management	10,174
CLIN 1 - Program Wanage	280,659
CLIN 2 – Support Service Labor	-
CLIN 3 – Other Direct Costs	282,108
Minimum LOE	290,833
Target LOE	299,558
Maximum LOE	1

- (d) The Contractor shall continually evaluate the total level-of-effort required and recommend to the Government changes thereto which are considered beneficial in attaining the overall objectives of this contract. In controlling the utilization of labor hours, the Contractor shall promptly notify the Contracting Officer, in writing, when there is an indication that premature exhaustion of the total labor hours is predicted.
- (e) It is understood and agreed that the rate of labor hours per month may fluctuate in pursuit of the technical objective; however, such fluctuations will be controlled to avoid an exhaustion of the total labor hours before the expiration of the term of the contract.

Mod #18 to Contract 2007\*1211818\*000

### CONTRACT NUMBER: 2007\*1211818\*000

- (f) The Contractor shall continually evaluate the total level-of-effort required and recommend to the Government changes thereto which are considered beneficial in attaining the overall objectives of this contract. In controlling the utilization of labor hours, the Contractor shall promptly notify the Contracting Officer, in writing, when there is an indication that premature exhaustion of the total labor hours of effort is predicted.
- (g) It is understood and agreed that the rate of labor hours per month may fluctuate in pursuit of the technical objective; however, such fluctuations will be controlled to avoid an exhaustion of the total labor hours of effort before the expiration of the term of the contract.
- (h) It is further agreed that the Contractor may submit written requests for acceleration of the average hourly rate of effort that will result in the utilization of the total labor hours set forth above prior to the expiration date of this contract. If the Contracting Officer approves the request, the accelerated performance shall be without increase in fee and the transaction formalized by modification to this contract.
- (i) The fee for performance under this contract is predicated upon the Contractor furnishing at least the minimum but up to and including the maximum level-of-effort specified. In the event the minimum level-of-effort is not provided as specified, the Government may, at its unilateral option, reduce both the base fee and the award fee pool proportionally. Such reduction, if necessary, will be applicable to all fees including those awarded/earned. The fee shall be adjusted downward in accordance with the following formula:

Fee Reduction = Fee (in \$) x (Target LOE-Expended LOE) Target LOE. "Fee Reduction" computed by the above formula is the dollar amount by which the fee specified in the contract will be reduced. "Fee" in the above formula means the base fee and maximum award fee for CPAF type contracts. "LOE" in the above formula means "level-of-effort". (j) In the event the Government desires an additional level-of-effort in excess of the maximum labor hours specified prior to contract completion, the parties may negotiate to make an equitable adjustment of the amount of fee payable hereunder.

Incorporation of Award Fee Plan B-3 The parties hereto agree that the fee payable under this contract shall be established in accordance with the award fee plan attached hereto and made a part hereof. Option For Increased Quantity - Direct Hours (Cost Reimbursement) NOV 2005 B-4

- The parties recognize that the total amount of direct labor hours set forth in the "Type of Contract and Consideration" clause in Section B represent(s) the best estimate of the number of direct hours that will be required to accomplish this contract effort. As the work continues or evolves, the effort originally contemplated may enlarge or modify, necessitating additional hours in excess of the amount set forth in said clause. As long as the additional effort is deemed by the contracting officer to be within the scope of the contract, the total amount of direct hours may be increased in order that additional effort may be performed. Unless otherwise specified in the contract, any increase in total hours shall be at the hourly rate as set forth in paragraph (b) below.
- The Government may increase the number of direct hours by issuing an appropriately funded unilateral modification to this contract citing this clause as authority. Each unilateral modification issued pursuant to this provision shall increase the total estimated contract value set forth in the "Type of Contract and Consideration" clause in Section B, at the estimated fully loaded cost and fee amounts as shown in the following table, respectively for each direct hour added.

(b)(3)

(b)(3)

If the contractor's Property Representative changes, the contractor must notify the Government Property Administrator of the change within 30 days.

- (d) Government Property List: The Government shall deliver to the contractor the property identified in the Section J attachment entitled "Government Property Report" for use in the performance of this contract on a no-charge-for-use basis. The contractor may use Government property in their possession, which is accountable to other Agency contract(s), if the Contracting Officer(s) of the other contract(s) provides written authorization of their approval for use on a rent-free, non-interference basis.
- (e) Financial Reporting General: The Government must account for and report assets in accordance with 31 U.S.C. 3512 and 31 U.S.C. 3515, Federal Accounting Standards, and Office of Management and Budget (OMB) instructions. Since contractors maintain the official records for Government assets in their possession, the Government must periodically obtain data from those records to complete its financial reports. Changes in Federal Accounting Standards and OMB reporting requirements may occur from year to year, requiring contractor submission of supplemental information. The specific Statements of Federal Financial Accounting Standards (SFFAS) to be used for property records are SFFAS No. 3 "Accounting for Inventory and Related Property and Materials", SFFAS No. 6, "Accounting for Property, Plant and Equipment", and "SFFAS No. 11, "Amendments to PP&E: Definitions" issued by the Federal Accounting Standards Advisory Board.
- (f) Financial Reports: To assist the Government with these requirements, the contractor's property control system shall report the total acquisition cost of Government property for which the contractor is accountable under this contract, including Government property as defined in FAR 45.101. The contracting officer will provide the total acquisition cost for all property furnished to the contractor by the Government in the Section J attachment entitled "Government Property Report". The contractor shall submit Quarterly and Annual Government Property Reports to the Government Property Administrator in accordance with the detailed instructions set forth in the Section J attachment entitled "Reporting Requirements for Government Property" to provide periodic updates to the list of property accountable to this contract and to provide information on contractor acquired property. The contractor shall also submit a Property Disposition Report with its Quarterly and Annual Reports to identify deletions from contract property records associated with this contract. The Quarterly, Annual, and Disposition Reports shall be considered updates to the Section J attachment entitled "Government Property Report". In addition, the contractor shall submit a Final Disposition Report within 30 days after disposition of all property accountable to this contract. Failure to provide required reports may result in termination of this contract, suspension of payment by the Government until required reporting is received, or other action as deemed appropriate by the Contracting Officer.
- (g) Documentation Required to Support Contractor Acquired Property Items: The contractor shall furnish the Government Property Administrator a copy of all documentation to support the reported acquisition cost and acquisition date for all contractor acquired property valued at \$50,000 and above within thirty (30) days of delivery by the vendor to the contractor. All contractor acquired property purchases since the last submitted report must be reported on the next Quarterly Report.
- (h) Form 5025 Annual Government Property Report: After completing the Annual Government Property Report, the contractor shall submit the completed inventory to the COTR for validation and verification. The contractor shall receive a signed copy of the inventory back from the COTR. This will be verified during an audit conducted by the Government Property Administrator. The contractor shall also submit a signed copy of the Form 5025 Annual Government Property Report along with the required Report attachments to the Government Property Administrator in accordance with the instructions in the Section J attachment entitled "Reporting Requirements for Government Property."
