- (f) The Contractor shall continually evaluate the total level-of-effort required and recommend to the Government changes thereto which are considered beneficial in attaining the overall objectives of this contract. In controlling the utilization of labor hours, the Contractor shall promptly notify the Contracting Officer, in writing, when there is an indication that premature exhaustion of the total labor hours of effort is predicted.
- (g) It is understood and agreed that the rate of labor hours per month may fluctuate in pursuit of the technical objective; however, such fluctuations will be controlled to avoid an exhaustion of the total labor hours of effort before the expiration of the term of the contract.
- (h) It is further agreed that the Contractor may submit written requests for acceleration of the average hourly rate of effort that will result in the utilization of the total labor hours set forth above prior to the expiration date of this contract. If the Contracting Officer approves the request, the accelerated performance shall be without increase in fee and the transaction formalized by modification to this contract.
- (i) The fee for performance under this contract is predicated upon the Contractor furnishing at least the minimum but up to and including the maximum level-of-effort specified. In the event the minimum level-of-effort is not provided as specified, the Government may, at its unilateral option, reduce both the base fee and the award fee pool proportionally. Such reduction, if necessary, will be applicable to all fees including those awarded/earned. The fee shall be adjusted downward in accordance with the following formula:

Fee Reduction = Fee (i	n \$) x (Target LOE-Expended LOE)
	Target LOE.

"Fee Reduction" computed by the above formula is the dollar amount by which the fee specified in the contract will be reduced. "Fee" in the above formula means the base fee and maximum award fee for CPAF type contracts. "LOE" in the above formula means "level-of-effort".

(j) In the event the Government desires an additional level-of-effort in excess of the maximum labor hours specified prior to contract completion, the parties may negotiate to make an equitable adjustment of the amount of fee payable hereunder.

B-3	Incorporation of Award Fee Plan
The pa	rties hereto agree that the fee payable under this contract shall be established in accordance with the award a attached hereto and made a part hereof.
B-4	Option For Increased Quantity - Direct Hours (Cost Reimbursement) NOV 2005

The parties recognize that the total amount of direct labor hours set forth in the "Type of Contract and Consideration" clause in Section B represent(s) the best estimate of the number of direct hours that will be required to accomplish this contract effort. As the work continues or evolves, the effort originally contemplated may enlarge or modify, necessitating additional hours in excess of the amount set forth in said clause. As long as the additional

Unless otherwise specified in the contract, any increase in total hours shall be at the hourly rate as set forth in paragraph (b) below.

(b) The Government may increase the number of direct hours by issuing an appropriately funded unilateral modification to this contract citing this clause as authority. Each unilateral modification issued pursuant to this provision shall increase the total estimated contract value set forth in the "Type of Contract and Consideration" clause in Section B, at the estimated fully loaded cost and fee amounts as shown in the following table, respectively for each direct hour added.

(e) A submission of a novation or name change agreement does not guarantee approval by this organization and if a change is deemed unacceptable, the contractor will remain under contractual obligation to perform. The contract may be terminated for reasons of default should the contractor not perform.
