MEMORANDUM FOR THE RECORD

10 April 1980

SUBJECT: Participation in Parapsychological Program in the Intelligence Community ~~(TS)~~

- A. ~~(TS)~~ Level I - Determine suitable targets for PSI teams.
1. Predicting times, places, and types of Weapon Tests.
 2. Finding new communication's sites or SIGINT sites.
 3. Developing cribs for C/A.
- B. ~~(TS)~~ Level II - Develop an in-house program to enhance PSI talents to permit and more greater and more timely SIGINT exploitation, and to determine COMSEC Threat as well as inovative defensive measures.
1. ~~(S)~~ Because of Psychological and Security risks:
 - a. Only a totally integrative human personality growth program incorporating PSI talents should be used in the Agency.
 - b. The program should only be voluntary.
 - c. Because of the security risks and the potential of such powers - only those with the highest ethical standards should be allowed into the program.
 - d. Only fundamentally well-balanced persons should be allowed to participate.
 2. ~~(S)~~ The PSI growth program should be primarily oriented toward identifying and developing the talents as they naturally emerge, and in the personal mode in which they express themselves.
 3. ~~(TS)~~ PSI teams should be used operationally only where other methods fail. The results should always be checked by more conventional methods (SIGINT Overhead etc.) before being used.
 4. ~~(TS)~~ An Agency talent search should be conducted to determine the range and type of usable talent available in the population.
