

**WHY SHOULD WE COLLECT AGAINST THE PARAPSYCHOLOGICAL THREAT** □

(b)(1)  
(b)(3)

1. *The National Security Council, circa December 1979, reviewed over 200 experiments and chose 12 specifically related to intelligence interests for presentation to Dr. Brezhinski. Out of this review came continuing support for the compartmented programs.*
2. [redacted] *have had a number of intelligence related contracts on PSI from DoD and CIA. Two involved locating Soviet submarines and the MX Missile System.*
3. *Mr. [redacted] of M5 has confirmed that the FBI used PSI talent on investigations and has for some time. They use the talent utilized by local police forces. [redacted] of M5 has used PSI with me in the past on an M5 case. He reports useful information was obtained.*
4. [redacted] *Chief of DIA, DT, is a supporter of the use of PSI on intelligence collection. He has a number of reports to support his position.*

6. *The prestigious and conservative Cambridge University conferred on Dr. Carl Sargent. its first Doctorate in Parapsychology for his work in the field; this work has been replicated successfully by other researchers - OMNI Magazine, November 1979, p.80.*
7. *The Nobel Prize winner in Physics for 1973. Dr. Brian D. Josephson says this about the field of Parapsychology:*

*"In recent years. a number of reputable scientists have entered the field with expert knowledge of how to perform good experiments. and the knowledge of how fraud may be perpetrated and how it may be avoided by careful experimental design. Still, it appears that the phenomena occur" - The Icelandic Papers - Forward*

8. A year ago when I toured the retiring and candidate chief of JCS OPSEC through the COMSEC Display Area, I asked both if they received information on the threat from Parapsychology and its usefulness in intelligence collection. Both said that they had seen both documents and motion pictures.

9.

10. Mr. [ ] SAO/DDC, is aware of a double blind experiment carried out by SRI scientists - whose results were validated by a neutral NSA chosen scientist - in which a subject chose random number patterns with almost 100% accuracy.
11. Parapsychology, circa 1968, was admitted to the American Association for the Advancement of Science. When the old physicist, Dr. Wheeler, tried to have the parapsychologists expelled from the Association, the president of the Association would not allow it saying that the phenomena could not be so easily dismissed. The field is still part of the AAAS.
12. Dr. Lowell K. Frazer and Mr. [ ] are interested in determining the nature and degree of the threat to COMSEC posed by PSI.
13. Dr. [ ] is interested in determining the nature and extent of the PSI threat to COMSEC. He has been informed of the MX Missile work at SRI and the Los Alamos related work at the University of New Mexico.
14. You are to receive a briefing related to the compartmented material in March.
