1. The BB-landers' representative in Oslo has passed back the following information. His source is Waldweber, HOLM-PETERSEN, NAK 512 and Uffa *g*

2. During the re-constituting of Aar Galle in September 1944, HOLM-PETERSEN, who is fuehrer NAK 512, was introduced by Waldweber to General ONODERA, Japanese Military Attaché in Stockholm, who was at that time paying a visit to Oslo.

3. The opportunity was taken of persuading ONODERA to work for and within the framework of Aar Galle. ONODERA was given the cover name ONODERA.

4. The first-based source states that there were further meetings between GALLAN and ONODERA in Copenhagen, the last one shortly before the capture of Galle.

5. The same source was asked why the information was not passed directly to Dr. Hans WAGNER, Danish Consul in Stockholm. Source thought this was probably due to the fact that relations between ONODERA and WAGNER were by no means good, and the incompetence of WAGNER.

6. Investigations are continuing.
