4. Although WILB was the central hub of the active counterintelligence investigation and was subordinate to WILB and WILG, the delivery of information is collected from WILGman-III to WILB; WILGman-III to Anti-IV. As for WILB-I and III were concerned this was primarily defined without action; but WILB did not manage to achieve any working and limitation of activities between WILB and WILB. It is not to say if this was caused by the information itself, or by the persons concerned; in any case, there were suspended differences of opinion and by WILB Key 194, could power to be given or denied.

At the same time, in the light of Army Antidetonation, Blaced Stone and
