Operational

Evaluation of CAMBIO Material

Since we are contemplating turning CAMBIO over to a German out-
post, provided CAMBIO weathers the CARRIAGE, we would like to have some
word from ☐ as to what part of material is practically use-
less. This would enable us to eliminate certain worthless CAMBIO con-
tacts with subcourses and to cut down on the fairly extensive reporting to
☐ Although it must be admitted that CAMBIO has been permitted to
wander about at will over the low-level RHAPSODY countryside delivering
much less than promised, we would appreciate your evaluation on specific
phases of the reporting. Are you interested in the cyclotron in Schnee-
berg? Do you hold the packing plaques for genuine?
