SUBJECT : PARKER PHS

1. Enclosed is a PHS on PARKER. It is very sensitive from several points of view:

a. It equals in sensitivity any agent PHS.

b. It was given to a POB case officer in confidence, since ZIPPER does not give us such information, and because PARKER is allegedly so well disposed toward the Americans he would like to work for us directly.

c. We do not want PARKER to have any inkling that we would show attachment to you (though of course he ought to assume we would).

2. Please use it in a very broad way as a basis for phrasing your questions, but do not show it to PARKER, or allow him to become aware that you have it. Rather, depend upon the hand-written lebenslauf he will give you.

3. Please return this and attachment personally to me.
