MEMORANDUM FOR: Acting National Intelligence Officer for USSR-EE  
FROM: Director of Central Intelligence  
SUBJECT: Poland

I understand you are doing an update on the Polish situation. Here are some materials I gathered to discuss Poland at the NSC meeting two weeks ago in California. We never got to it in any detail. I thought this might be useful in the project you have under way. I was particularly interested in the report

[redacted] in the Polish Economy [redacted]

What interested me most was the description of the inherent sluggishness of the Polish economy and the heavy commitment of people and redundant employment. Also, I would suggest that in your current project you update and reassess the alternatives and factors to be considered in implementing them as laid out in my one-page memorandum to the President dated 15 July. In doing that, the pages in the attachments which my one-page memorandum cites may be helpful.
