SELECTED VENONA MESSAGES
Part II:
Selected Venona Messages

A Note on the Translations and List of Messages

The release of Venona translations involved careful consideration of the privacy interests of individuals mentioned, referenced, or identified in these documents. In very few cases, names have not been released because doing so would constitute an invasion of privacy.

In some of the Venona translations, the analytic footnotes indicated that the person referred to by covername had not been identified. Another—usually later—message may have footnoted that same covername with an identification. For example, in some early message translations, the covernames MER and ALBERT were footnoted as unidentified, but analysts subsequently determined (as footnoted in later translations of other messages) that the person in question was Iskhak A. Akhmerov, the KGB’s chief illegal officer in the United States. Unfortunately for readers, the KGB occasionally re-used covernames; consequently, a single covername can designate two different persons. Even so, readers often can determine from context or geographic location which person is being referred to.

Finally, the Venona messages are replete with specialized Soviet intelligence terminology. The following are definitions of some of the more common terms and phrases.

The Russian word klichka (sobriquet or nickname) appears in the Venona translations as “covername.” There are hundreds of covernames in the translations, including many seen in the messages included in this volume, such as ALBERT, LIBERAL, and ALES. Covernames designated Soviet officers, active or retired assets, valued contacts, and sometimes even prominent figures (such as CAPTAIN for President Roosevelt) and were periodically changed. Assets and contacts, however, rarely knew their covernames, which were to be used primarily in cable traffic. To complicate matters further, a Soviet intelligence officer like illegal rezident Iskhak Akhmerov typically had a covername (MER, and later ALBERT), aliases he used in his cover identity (William Grienke and Michael Green, among others), and “street names” he used in the company of assets and contacts (“Bill”).
Fellow countrymen were members of the local Communist Party.

An illegal was a KGB or GRU officer, often a Soviet citizen, working abroad under alias with neither diplomatic cover nor visible connections to legal Soviet establishments. An individual illegal’s cover story was his or her legend. Iskhak Akhmerov was the KGB’s principal illegal in the United States before 1946 and thus was regarded as the illegal rezident. He apparently was succeeded in this role by Rudolf Abel. Several KGB and GRU illegals were shown in Venona messages to be operating in the United States, Mexico, and other countries. Although some Soviet illegals later used radios for direct clandestine communication with Moscow, illegals in the United States during World War II generally transmitted and received messages through Soviet diplomatic missions.

A leader (or group leader) was a KGB officer or an experienced local agent who handled and supervised a network or sub-network of assets. Such an officer might have either worked for an official Soviet entity or operated as an illegal. Venona messages showed that such agents as Jacob Golos and Sergei Kurnakov, while not themselves KGB officers, were nonetheless given significant responsibilities for certain networks. In many cases where the KGB gained control of older Comintern or GRU networks, the existing leader was left in charge for months or even years.

A line was a grouping of KGB officers by operational tasks. Some of these entities seen in Venona communications were the Second Line (which focused on ethnic groups of interest to Moscow, such as Ukrainians or Latvians); the Fifth Line (responsible for the security of the Soviet merchant fleet and its personnel); the White Line (concerned with White Russian emigres); and the Economic Line (a scientific and technical sub-residency, headed by Leonid Kvasnikov, in the New York consulate).

The KGB and the GRU referred to one another as the neighbors. In KGB parlance, Near Neighbors meant the GRU-Naval auxiliary, while the GRU proper was referred to as Far Neighbors.

Probationers was the cover term for KGB agents. The term—which apparently fell out of usage after the 1940s—was sometimes applied to KGB officers who were temporarily not attached to a diplomatic mission and hence were being run as agents.
To put on ice (sometimes rendered in cold storage) meant to suspend use of an agent.

The rezident was the KGB chief at a particular location; his station was called a residency (rezidentura). The New York residency supported a sub-residency, under Leonid R. Kvasnikov, to collect scientific and technological secrets.

A worker (sometimes referred to as a cadre) was the KGB's usual term for its own officers working in a diplomatic or official Soviet establishment such as the TASS press agency or the Amtorg trading company.

**Access to the Venona Translations**

All the Venona translations—roughly 2,900 KGB, GRU, and GRU-Naval messages—are being released to the public. Paper copies have been sent to the National Archives and Records Administration at College Park, Maryland, and to various federal repositories (typically at large state universities). The National Cryptologic Museum, adjacent to NSA headquarters at Ft. George G. Meade, Maryland, also has a complete set of the translations. Each release of the Venona translations in 1995 and 1996 was accompanied by an original explanatory monograph authored by Robert Louis Benson, co-editor of this volume. The translations and monographs can also be found on the Internet's World Wide Web, NSA's Homepage, at http://www.nsa.gov:8080. This conference volume can be found on the World Wide Web, CIA's Center for the Study of Intelligence Homepage, at http://www.odci.gov/csi.

Notes [a] The following is an alternative reading:

"... had a meeting with [C% a former acquaintance] of Doctor Fuchs who ...."

On technical grounds there is nothing to choose between these two versions. Without collateral it is impossible to say which is the correct one.

[b] It appears from the two previous occurrences of this group that the general sense is "said".

/([c]

- 2 -

[c] Inserted by the translator. The case ending indicates that the preposition "in" must precede "BIRMINGHAM".

[d] It is almost certain that this means "papers", "documents", etc.

[e] This is a literal translation. The sense is probably: "... will be sent to CANADA so that industrial methods may be used."
It is known from collateral that laboratory facilities were found to be inadequate and that the decision was taken to use industrial plant.

[f] There is some evidence that the value of this group is: "Draws attention to"

[g] The structure of the sentence suggests that LEIPZIG should be an adjective and that the passage should read: "... in the LEIPZIG..."
However the adjectival ending has been tried without success.

[h] This is an elliptical expression which it is exceedingly hard to interpret without the full context.
"OKAZIEJ", or more correctly "S OKAZIEJ", is equivalent to the French "a l'occasion". To send a report or letter "S OKAZIEJ" means to send it when the opportunity arises.
"DOKLAD OKAZIEJ" thus suggests that a report was to be sent when an opportunity for sending one arose. If so, the report was presumably to be sent in writing. (BRION could have signalled a report at any time and need not have waited for a suitable opportunity.)

[Part II]

2. The basic document which gives proof of American citizenship is the birth certificate. The birth certificate does not, as a rule, serve as an everyday means of identification. The ordinary, everyday documents are the driver's licence, the draft registration card (for men) and various passes and identity papers issued by establishments, businesses, companies and firms. The NEIGHBOUR(SOSED) -- are of the opinion that birth certificates were formerly issued by the churches. Now they are issued by hospitals. Archives of birth records are carefully preserved by the Americans and checking a copy of a birth certificate does not cause the F.B.I. any great difficulty. The driver's licence (2 groups unrecoverable) (to each adult, as the name and address of the holder are recorded on it, it also serves as an ordinary, everyday means of identification). Licences are issued by the transport department of the City Police (Traffic Department). To obtain then one has to fill up a short questionnaire giving basic biographical details and present a licence from another state or pass a written examination on the traffic regulations of the city in question and a driving test. An American needs no other papers. The NEIGHBOUR promised to draw up a birth certificate said the other cry that, in view of the postponement of his appointment to CA4444, his opportunities in this respect had come to naught.

[Part III]

[29 groups unrecoverable]

The prospects of a new system of documentation being instituted in the USA are uncertain. The F.B.I. insists on registration and on taking fingerprints of about 20 million persons have been fingerprinted. These are mainly aliens (all aliens are fingerprinted), merchant seamen and crews of ships coming here, servicemen, employees and workers in defence plants and government establishments. The issue of fingerprint identifications to (2 groups unrecoverable) is becoming popular. A number of TAYLOR'S (1111) people had their fingerprints taken in order to get passes into the ports.

[Continued on next page]
5. (Continued)

The landing of an illegal[6] from our ship requires careful organization. The "GREENE[GREENE][iv] keep a watchful eye on our ships and people. During the period from September to December 1942 there were two cases of attempts to inspect two ships for a second time. The following cases are known:

(a) During the inspection of a ship, the passengers and crew were checked a second time on a trivial pretext.

(b) There was a personal search of members of a crew going into the city "in order to discover smuggled letters[6][7][8][9][2 groups unrecovered] to search naval intelligence [3 groups unrecovered] with the object of recruitment. There are repeated cases of our sailors not returning to their ships. Individual members of crews are questioned as to whether there are any outsiders on board.

Contrary to the previous arrangements, the Americans only admit the crews of our ships into the city if they show their passes. They are permanent passes and are kept by the Captain. They are issued to each sailor arriving in the USA for the first time after his fingerprints have been taken. The information[MATERIAL][a] on the pass is checked on departure from the port and on return. The number of check points varies. Crews of ships in principle remain as before. All objects brought here which are being taken away[3], packages and letters are inspected.

In clothing and appearance, our women [8 serving] on ships are clearly distinguishable from the local women. This is because of their stockings, their berets (American women wear hats), their handbags, and their untidiness. They do not take any trouble over their hair or their make-up. Suits or overcoats of medium quality differ little from the American ones.

The possible landing ports are SAN FRANCISCO and PORTLAND. Up to 15 of our ships arrive in PORTLAND each month, 6 to 7 arrive in SAN FRANCISCO.

(b) Easier to get a hotel room or a [furnished] room if necessary.

(c) Easier to buy a train ticket.

(d) Less danger of the AUSTRALIAN WOMAN's meeting

—PORTLAND—

Advantages:

(a) DAVIS can be relied on. His work is such that he sees personally to the ships and is in the port practically all the time.

(b) If necessary DAVIS can avail himself of the help of our other people there.

Disadvantages:

(a) The city is small. It would be harder to disappear in it. It is necessary to [2 groups unrecovered] on the day of landing.

(b) It is harder to get a hotel room and practically impossible to take a [furnished] room. Our people have been watched and are well known. It would be more difficult to pass the time until the departure of the train.

(c) DAVIS is overburdened with his own work.

[Part VII]

6. Sleeper tickets on long distance trains may be bought at the ticket office two or three days in advance. Names and addresses are required when making a reservation. Two or three trains a day leave for NEW YORK. The trip takes up to five days and one must change in CHICAGO. The southern route through NEW ORLEANS should be rejected.

—PORTLAND—

The press reports that the checking of cars is in force along the west coast, especially around LOS ANGELES and to the south. To combat desertion, the military police check the papers of enlisted men in trains at PORTLAND and SAN FRANCISCO. Civilians are not liable to have their papers checked. Carriages on long distance trains consist of common sleepers and separate compartments. There are compartments for one person (roomettes) and for two or three persons (compartments) and special class compartments (drawing-rooms). In this instance a roomette would be the most suitable. One boards the train 20 to 30 minutes in advance. One can eat in the restaurant car or order in the compartment.

Notes:

[a] The Russian word MATERIAL is often used in the sense of "documents" or "documentary material". In this context it appears to mean "information".

[b] PEREMOSINA generally means the transfer of troops or goods from one place to another. In conspiratorial language it means the despatch of an agent to a given country.

[c] KhoSfiTJMTVO is very difficult to translate out of context. It can mean "economy", "farm", "establishment", "household".

[d] Literally "the designations and addresses of previous service".

[e] Or "NEIKGORE".

[f] There is technical evidence that the word after "taking" is "fingerprints".

[g] I.e. "an illegal agent".

[h] This can either be interpreted as "contraband and letters" or "contraband letters" i.e. "smuggled letters".

[i] Literally "all objects being transported, being carried away...". This presumably means "all objects brought here by ship and taken out of the dock area".

[k] Inserted by translator.

[l] I.e. part one of the material on the despatch and legalisation of the AUSTRALIAN S.Y.MAN. There is no indication that part two will be sent later.

No. 938

17 June 1943

To the Director.

I am transmitting the main points of a report of BW[i] (compiled in April) reviewing the evaluation of the American and British Intelligence Services of the forces in the Soviet-German front in 1943 (the report was given by MARQUIS/MARCUS[iii] from ANCHOR/ANCHOR[iii]).

1. The main conclusion in the [C report] [2 groups unrecoverable]

2. The evaluation of the British Intelligence Service:

The ground and air forces of the USSR considerably exceed the German. The USSR's production of tanks and aircraft exceeds by far the German. The economic and possibly the military potential of the USSR have not reached their peak, but the German is on the decline. On the front by March there were 258 Soviet divisions, German (in the equivalent) 165-178, not considering Romanian and others. Aircraft correspondingly 4,589-4,959 and 1,968.

3. [The evaluation][a] of the American [Intelligence Service][a]:

"It is inadequately defined: all the German losses on the front will be replaced by summer; by [C 1 June of this year] 38-46 new divisions will be formed and trained. The aim of the Germans in 1943 is as before - the destruction of the Red Army in offensive operations."

4. The BW's own conclusions:

a) British Intelligence grossly exaggerates the Russian forces and underestimates the German forces, but the Americans do the opposite.

b) A full-scale offensive by the Germans is beyond the limits of their possibilities. At the same time the economy of the USSR is so strained that the armed forces cannot be, from the point of view of ability to conduct operations, at the 1942 level for more than a year.

c) In the summer the Russians will have considerable superiority on the ground and undisputed mastery in the air.

d) The superiority of the Germans is in transport both in the rear and along the front for regrouping.

e) If by the summer Germany can replace all her losses and there will be no risk in weakening her garrisons in Europe, she can launch an offensive on a scale almost equal to that of 1942. The German Command probably would not consider advantageous a transition to defense on all fronts. Their main task in 1943 will [C therefore] be the destruction of the armed strength of the USSR.

CARTER [Koenig][14] has sent a letter via STELLA.[11]

Since 2nd July he has been working at the E.G.I. Laboratory, PRINCETON, NEW JERSEY. It has a staff of 20 engineers. They are developing two projects by contract with the Army Signal Corps. These are to be ready by October - November 1943. Both projects are basically for the improvement of radar and its use in radio navigation for blind bombing (that is from a high altitude and a great [2 groups unrecovered]) without visual bearings and without optical sights. It is meant to be fitted on Flying Fortresses. CARTER has been entrusted with drawing up instructions and a manual for the use of this apparatus. There is an opportunity of collaborating with other engineers. In an explanatory note CARTER mentions the advantages of the new system over the British: it is not subject to interception and has greater accuracy.

CARTER mentions his contacts with four engineers who are working in important war establishments. For checking purposes [5] we have told[14] the NEISSOENG[15] about the last three of them. All are Communists.

Philip FIELD [Philip Fil'D], Aged 30. Mechanical engineer. Jew. Wife GL/UA is Russian (party member). At present working in a military establishment (we will let you have the name later).

William KLEIN [WILLIAM MAJCH]. Aged 27. Rubber chemist. Friend of CAMER. Lives in NEW YORK. Works as an assistant in the HUDSON ELECTRIC (New York) laboratory. For the last eight years has been taking an active part in party work. Is not under suspicion with the company.

A radio engineer. Works in the SANDY HOOK [NEW JERSEY] Army Signal Corps laboratory. His wife is a party organizer in the NEW YORK organization and is a friend of William KLEIN.

An engineer-physicist. - Director of the INTERNATIONAL laboratory. Works on secret systems for electro-mechanical gun sights and ship and aircraft control.

We will let you have more precise information and the surnames later when we get them.

From further information which has been reported to them about CAMER's biography, the慧GETHERS have come to the conclusion that CAMER has been in contact [with the KGB] with one of our military [agents].

1. A change in circumstances - and in particular the dissolu-

   in the method used by the workers of our residencies to keep in
   touch with the leaders of the local FELLOWCOUNTRYMAN[D4 organisation11]

2. Our workers, by continuing to meet the leaders of the
   FELLOWCOUNTRYMAN, are exposing themselves to danger and are giv-

   that the "BIG HOUSE" is still in existence.

3. We propose:
   a) That personal contact with leaders of the local FELLOW-

   b) That meetings of our workers may take place only with

[Part I] Circular[a].

Once again we direct your attention to the insufficient secrecy in the work of the leaders and operational workers of the residencies. Some operational workers are being initiated into affairs of the residencies which have no relation to the work which they are carrying out. Of course this is the result of talkativeness and the inevitable responses of brotherly relations which are maintained among our workers. It is necessary to all [6 groups unrecovered] but each individual operational worker should know on the general work of the residency only what is necessary in order to carry out the work on his own assignment.

In the premises of the embassy, legation, consulate (in the studies and work rooms of the residents) and in the private apartments, probably fitted with special [1 group unidentified], discussions are being conducted on operational questions. There have even been cases of setting up in the work room a conference of all the workers of the residency for a collective discussion of instructions of the [C center]. It is categorically forbidden during instruction and generally in discussion, particularly within the premises, to use the real surnames of workers and probationers[STAZHERI], names of cities and countries, officials and other objectives. All this should be encoded.

[Part II] [1 group unrecovered] considering the cases cited above it is recommended instead of conversations aloud to exchange notes, which immediately after such a "secret conversation" [1 group unidentified] are destroyed. Our workers must not at work and in private life [4 groups unrecovered] from other [1 group unidentified] apparatus and [1 group unrecovered] that it will inevitably lead to disclosure. The residents should not share with their subordinates communications which they are not supposed to know for the work.

[Part I] We are transmitting information written down by Rumlto after a conversation with [name redacted].

1. As regards the re-election of ROOSEVELT financial and business groups are on the whole non-committal. They openly support DEGTY as many more than any other candidate but in support of ROOSEVELT they say very little. On the whole these circles leave the question open for remaining free judgment. Such sharp propaganda of hate toward ROOSEVELT, as came out earlier from these circles, is no longer being carried on.

[36 groups unrecoverable]

2. ROOSEVELT in the end of April) the labor movement and the party machine of the Democratic Party are for the most part a carry over. In the political circles of the Catholic Church the group that had come out earlier against ROOSEVELT now are beginning [groups unrecoverable]. FANILAT who is [groups unrecoverable] church circles has gone over from the opposition to a neutral position. TOBIN who is a strong influence on the Church is at present leading a movement for ROOSEVELT in the circles of the AFL-CIO (III). The new Catholic group which is being led by Supreme Court Justice MURPHY is an influential group, striving for the public support of ROOSEVELT and preparing open backing of his re-election.

[42 groups unrecoverable] is widely attracting present Catholics. Among the Republicans who were former WILKIE supporters there is a growing tendency toward going over to the side of ROOSEVELT.

3. The strategy of the Republicans still has not clearly been defined. The basic tendency apparently lies in the temptation of all [19 groups unrecoverable] on internal questions

[62 groups unrecoverable]

[29 groups unrecoverable]

[Part II] 4. Opposition to ROOSEVELT in Congress is sabotaging all ROOSEVELT's undertakings, with the exception of direct military appropriations. However the Democrats who stand in opposition to ROOSEVELT consider it impossible to remain in an anti-ROOSEVELT coalition during [22 groups unrecoverable] against ROOSEVELT, but without any success. In [5 groups unrecoverable]
elections 88% of the Polish vote was [6% given] to the Democratic party, in comparison to the general figure of 65%. The British undoubtedly will support ROOSEVELT,

[37 groups unrecoverable]

will not budge. The Italian Social-Democrats together with former Fascists in every way possible are trying to turn the Italian-Americans against ROOSEVELT. An overwhelming majority of the Yugoslavs are for ROOSEVELT, even members of the mass organizations which are officially being led by supporters of MIHALJIC. The majority will come out for ROOSEVELT. Various reactionary emigre groups [3 groups unrecovered] ROOSEVELT, but they cannot attract to their side even all of those who follow them in [2 groups unrecovered].

6. If the elections were to take place at the present time ROOSEVELT would probably receive an insignificant majority of the popular vote, but he would lose the election since the votes in his favor are strongly concentrated in the South, where the huge majority of votes on his behalf in the final total count no more than 51%. For the last two months ROOSEVELT has been slowly gaining strength, but not with such speed as

[7 groups unrecoverable]

only a favorable course of the war and some bold efforts of ROOSEVELT toward a more clear-cut definition of his policy before the masses could secure his re-election.

7. According to our speculations a second front will be launched during the next few weeks. A further delay would actually assure the accession to power of the Republicans.

8. As far as we have been able to learn, the financial and business circles completely share hopes for a quick [5% agreement]. The sharp fluctuations of the "New York Times' undoubtedly reflect the sentiments of some of the groups of these circles, but in our opinion not of the most decisive groups.

ASSESSMENT OF STUKACH'S BUSINESS DEALINGS, ASSOCIATES JOSEPH WOLFSON AND BEN, FUTURE DEVELOPMENTS (1944)

From: NEW YORK
To: MOSCOW
No.: 618 4 May 1944

Your No. 1669(1).

1. The money which STUKACH will receive will not be put into circulation by him personally. For the 5,000 he will get a loan from JOSEPH WOLFSON, proprietor of the "MERIDIAN Dental Laboratory", whose business provided STUKACH with cover for six years. About two years ago the cover fell through because S. does not work in the firm and the LEAGUE (LIGA) required by law the registration of all stockholders, with an indication of their position in the firm. S. has very good personal relations with WOLFSON and the latter will undoubtedly give him a cheque for the required sum. S. will deposit the cheque received for the necessary sum in his account in the bank and then after this will use the money from the bank. If it is insufficient, S. may be given some aid by a relative of his wife's, who has a watch business.

[Continued overleaf]
2. S. is organizing a firm[v] of his own and with the money available he is buying manufactured goods in the shape of watches and crocodile-skin articles. BDU[vii] is assisting him in this. Thus the money will be in goods. During the last two months S. has been making a detailed study of the market for watches and crocodile-skin articles and has ascertained that these things are much in vogue and in great demand. Therefore he is sure that in the next three months [I groups unrecoverable] will be able to sell them, thus he will not only get back the money invested but will also make a profit of three to four thousand. He will repay his debt to BDU out of the money he makes and will carry on the business without anybody's aid. We repeat, the whole business has been worked out so that S. should be the full owner of the firm and he is not inviting any partners into this [252798 word]. In these conditions we can always organize any kind of business or transfer the firm to other hands. The business in its present form is safe and there should be no delay in organizing it since the watches will be arriving in the COUNTRY [STRANA][vii] in the near future and must be bought up at once.

We await a reply as soon as possible.

Last week CARTHAGE[KARPA-GEN][iv] assured EISENHOWER that there were sufficient trained reserves in the COUNTRY to ensure the reinforcement of the units taking part in the invasion. The ISLANDERS[OSTROVITY][v] have stopped objecting to the invasion. LUN''s[vi] deputy (henceforth "KAPRAL[vii]") told IMPERIALIST that KABAN[viii] had agreed with the invasion plan proposed by the TOWNSMEN[GOROZHANE][ix]. Only in passing did IMPERIALIST touch upon European questions, saying that it was desirable to have a solution of the Soviet-Polish problem before the invasion: "In return for a change in the Polish Cabinet, MOSCOW ought to renounce L’VOV."

I. [xi] continues to consider the question of the participation of the USSR in the war against Japan a stumbling block in Soviet-American relations. The master of the DACH[xii] told him that discussion of this question by the press was contrary to the interests of the COUNTRY. I. agrees with him but does not conceal that our future intentions in this matter are considered in responsible circles in the COUNTRY to be a deciding factor in the policy of the COUNTRY.

There are three possible ways of obtaining a transit visa for the couple (CISU)[1]:

1. The normal way - TENOR[1] will do everything himself. Will take several months, but the result will be favourable.

2. Through the lawyer (ADVOCATE) John KITRIN[1] - somewhat quicker, will cost 500-600 dollars. Both methods are lengthy as they will involve investigation (PROVEK)[1].

3. Through CROWN's[1] adviser, David MILES[1] - will make 3 - 4 days, will cost 500 dollars. Round MILES there is a group of his friends who will arrange anything for a bribe. Through them TENOR obtains priorities and has already paid them as much as 6000 dollars. Whether MILES takes a bribe himself is not known for certain. The figure 10 (sold.) [a ten]. | The

quantitative interpretation is the

use of TOMMI. The meanings parallel those of DEMELIA; it can mean

PREVIOUSLY: The Tens. This translation, while justifiable (see below), is misleading, for it tends to suggest that the

DEMELEIA was necessarily composed of just ten people. Actually, its

quantitative reference may be no stronger than that of, say, "The Four

of Clubs" or "Eight Ball." A translation of the definition of DEMELIA

in the following table follows: English words for the various mean-

ings are added in brackets:

DEMELIA: 6, 5, 1. The figure 10 (sold.) [a ten]. | The

combination of various objects numbered with this figure (sold.):

e.g. billiard ball no. 10 (the ten ball); bonnet, bonnet no.

10 (number 10). | A school mark denoted by this figure (second

decade; a ten). | A playing card having ten pips (the ten, a ten,

e/t性价比). | A ten-cent note or coin (sold.) [like our

tenner, ten-cent]. | A launch with ten sails (msst.).

However, speaking in favor of the quantitative interpretation is the

use of TOMMI. The meanings parallel those of DEMELIA; it can mean
"...have been increased abruptly to one vehicle"; and it figures in the
history of the All-Union Communist Party (Bolshevik) for the application
to various triumvirates formed by Lenin and Stalin.

Herewith the personal reports:

1. AKTEN[14] controlled several probationers [STA3TV] of the Second Mass[111]. He ran these probationers on his own only after SERGEJ[19] had left for home. He did not display any particular initiative.

He has a poor knowledge of the language, he barely [5 groups unrecovered] the minimum. His miserable cover (messenger-guard) actually stopped him, in the conditions obtaining here, from doubling for [MIURL] the inspectors. With a different cover he could have acted with greater initiative and more effectively. Perhaps he is experiencing a feeling of dissatisfaction since, according to what he says, he has not been able to show his worth for many years because of his cover and [8 groups unrecovered] he stops opening doors on an equal footing with two others who are capable of nothing else.

2. **Leonid**, before **Masim**'s arrival, had given transfer to the **Zvuk** group. **Masim** was given transfer to the **Zvuk** group. **Masim** was not qualified in the **Zvuk** technique and successfully carried out a number of special tasks connected with documents on receiving and dispatching people. He has carried out missions consisting of checking and observing workers. He was used for tailing immediately upon **Masim**'s arrival. He acquired experience in external surveillance. **Masim** has virtually no knowledge of the language and has not studied it.

Unconcealed affairs with women have created around V. an atmosphere of gossip and have undermined his authority in the local apparatus and the agent network AGENTURA connected with it. On his side this has caused irritability, rudeness and strained relations with those around him. All this has led to exceptional slackness in operational work:

a) Contact with the ship agent network [SUROAGENTURA] was not established on all vessels. The guarding of the ships and investigating of obvious cases of sabotage were not carried out. V. did not know how many ships and which were in port or were expected in PORTLAND or SEATTLE. The reports for the agent network for the most part came in haphazardly.

At the same time steps have been taken to release V. as much as possible from work connected with his cover by using as a roof [KRYSHA] VOVChEK who is his superior. We consider inadmissible [3 groups unrecovered] and, most important of all, we also consider that inquiries about visas for the Country [Orenburg] [VII] and transit visas should be made by the Pair from "KAZAN" because it is known here that we do not allow foreigners into SMOHA on such business. It is necessary on the basis of BASS's telegram to "call" the Pair's passports to the Embassy of the Country [Orenburg] [VIII] and request of a visa with the request that they be sent to the Embassy of the Country [Orenburg] [VII] in SMOHA.

Should complications arise the pair are to telegraph BASS and you may so that action can be taken and fresh pressure brought to bear. According to BASS’s information there should be no complications.

For your information we advise how the business of getting a visa for the COUNTRY was managed. To begin with NILES refused to intervene in the case, explaining that he had only recently intervened for one refugee and recommended approaching Congressman KLEINS. The latter did not, and it was only then that NILES intervened. The affair was held up because of the Party Convention and was actually settled in the last six days. All documents, telegrams and vouchers for the money orders, the parcel, and the deposit were received by BASS today in an envelope of the TEMPLE. To organise technical point "A" in TIR (TIR)[1] we have been compelled to set up 2 independent enterprises, as ODESSITE (ODESSIT)[2] covers only the second part of the technical process of the manufacture of dies (STAMPS). The basic part (1 group unrecovered) can be carried out by SECOND-HAND BOOKSELLER (URNINE). According to our data SECOND-HAND BOOKSELLER is a devoted and reliable person. Please authorise the use of S.-H. B. (S.) in the "A" line. We consider it essential to expand ODESSITE's enterprise by organising a stamp (STAMPEL'NYZ) workshop and transferring it to another part of the city. Suitable premises for this purpose have been selected. For the organisation of the two enterprises and for technical equipment 2500 dollars comprising 1000 for O. and 1500 for S.-H. S. are required. [3 groups unrecovered] [12 groups unrecovered] [Continued overleaf]
In negotiations with the LEAGUE[vi] the British will advance the following arguments:

ENGLAND and eliminate her as an economic factor but this

ENGLAND,

[Part II]

2. "The question as to whether the north-eastern and southern zones of GERMANY will be occupied respectively by the British or the Americans has not yet been decided and will be discussed by CAPTAIN[vi] and SOAB[viii] at their meeting which, as far as I know, will take place at CHERBOURG about 9th September. Besides this no decision has been taken on two fundamental questions:

1. Is it desirable to attempt to maintain GERMANY on a moderately high level of economic stability and well-being or should the armies of occupation let her starve and go to pieces?

2. Is it desirable to help GERMANY to remain a single administrative or should the armies of occupation do all they can to split up GERMANY into separate states?"

Citing the STARG[vi] documents which you know of, H.G.x] emphasizes that the plans of the British, in large measure, are based on the opinion of the British Foreign Office. A sub-committee on post-hostilities planning of the British Chiefs of Staff issued a paper on 19th August, the authors of which [x group unrecovered] "[x] the consideration from a military point of view of all the facts for and against the division of GERMANY into separate German states and for the division of GERMANY into at least three states corresponding to the boundaries of the three zones of occupation and [x] it is recommended] that the Anglo-American armies of occupation should, as a first priority,

[Part III]

The Americans have created a special commission with the powers of a government department to examine policy relating to GERMANY. Among the questions which it is to discuss are:
1. Should GERMANY be helped (for instance by the American occupation forces) to maintain or restore order and economic stability?

2. Should GERMANY be split up into separate states?

3. How should MITTLE, HIMMLER and the rest, be dealt with, if they should be caught?

4. Should the RUHR be internationalised?

NAFOB strongly opposes the first point and proposes letting economic ruin and chaos in GERMANY develop without restriction in order to show the Germans that war are unprofitable. The assistant to the head [KHOIYIAI] of the ARSMAL [i.e., McCLOY], points out that such a situation would be intolerable for the army of occupation, that the responsibility for some minimum of order [4 groups unrecoverable] and so forth - NAFOB obtained. CAPTAIN's consent to the use of yellow-seal dollars by American troops instead of military marks as had been previously agreed with the British and the Russians. The purpose of this is to turn the American occupation forces into the economic masters of GERMANY. McCLOY, LAWYER [LIXH], high officials in NAFOB's establishment as well as the British, are opposed to this. The British and McCLOY are trying to get CAPTAIN to revoke this decision. McCLOY [4 groups unrecoverable] division of GERMANY averring that this attempt is doomed to failure. His views have some significance since he has direct access to CAPTAIN.

3. Under the influence of BOR and LEEPER [LIPER], the British intend to set up and keep in power in GREECE a government well-disposed towards ENGLAND and willing to help her and hostile to communism and Russian influence. Their tactics consist in supporting the King as much as possible but also in leaning on the so-called liberal elements which might take the King's place if the opposition to him were to become too strong. For military reasons the British were forced to support SAM and ELAS to a certain extent.

In order to achieve their political ends the British intend to land a British division from Italy in GREECE to keep PAPANDREOU in power. As you know, this plan will be realised very soon. LEAGUE regards the British intrigues in GREECE with some suspicion and NAFOB hopes that we will take advantage of these circumstances to disrupt the plans of the British and all the more so since the IZBA [xv] still supports EAM and ELAS.

Lately the development of new people [D% has been in progress]. LIBERAL[li] recommended the wife of his wife's brother, Ruth GREENGLASS, with a safe flat in view. She is 21 years old, a TOWNSWOMAN [GOROZHANKA][ili], a GYMNAST [FIZKUL'TURNITSA][iv] since 1942. She lives on STANTON [STANTAON] Street. LIBERAL and his wife recommend her as an intelligent and clever girl.

[Ch] Ruth learned that her husband[v] was called up by the army but he was not sent to the front. He is a mechanical engineer and is now working at the ENORMOUS [ENORMOZ][vi] plant in SANTA FE, New Mexico.

detain VOLOK[vii] who is working in a plant on ENORMOUS. He is a FELLOWCOUNTRYMAN [ZEMLYaK][viii]. Yesterday he learned that they had dismissed him from his work. His active work in progressive organizations in the past was the cause of his dismissal.

In the FELLOWCOUNTRYMAN line LIBERAL is in touch with CHESTER[ix]. They meet once a month for the payment of dues. CHESTER is interested in whether we are satisfied with the collaboration and whether there are not any misunderstandings. He does not inquire about specific items of work [KONKRETNAYA RABOTA]. In as much as CHESTER knows about the role of LIBERAL's group we beg consent to ask C. through LIBERAL about leads from among people who are working on ENORMOUS and in other technical fields.

Your no. 4256[a]. On making further enquiries and checking on LARIN[x] we received from the FELLOWCOUNTRYMEN through EKhO[xi] a character sketch which says that they do not entirely vouch for him. They base this statement on the fact that in the Federation LARIN does not carry out all the orders received from the leadership. He is stubborn and self-willed. On the strength of this we have decided to refrain from approaching LARIN and intend to find another candidate in FAECT [FARKHT][xii].

ALBERT gave the following answer:
KOL'TsoV's[v] meeting with [C. RICHARD

character produced an unfavourable impression on S3iER. ROBERT was surprised at our decision to have recourse to the aid of a special plan for working with [3 groups] questions on which ROBERT [on himself] as leader of the group, in his own words, is working ceaselessly. "We did not decide to use [3 groups]"

[3 groups unrecoverable]

In other words, this step of ours ROBERT took as a mark of insufficient confidence in his business abilities. It is true that later a pressed report at having related touchily [S3iER] [3 groups unrecoverable] in ROBERT's opinion shows that ROBERT is jealous about "... elements"

[13 groups unrecoverable]

not to agree to our measures calculated to "... pass" ROBERT. ALBERT is convinced that in attempts to "... to members of the group, however insincerely, will be received [3 group unrecoverable] unfavourably" by ROBERT.

[3] [he said that]; in that case [2] [he] could in the meantime have a chat with ROBERT about the possibility of breaking the group into two or three sub-groups for greater secrecy and more effective organisation of the work, leaving however the overall direction in ROBERT's hands.

ALBERT [it seems to me] that for the time being the question can only be put in this form and that he will discuss it with ROBERT then occasion offers. At the same time he observed that his relations with ROBERT were very good and that the latter would consent to a meeting between ALBERT, himself, and [3] and any member of the group. Possibly, in [3] ROBERT's tendency not to 'expenditure' advice [13] SOUND's [203] education is making itself felt.

2. "Our points 3, 4, 5, 6 and 7 I have passed on to ALBERT in detail.

3. ALBERT promised to write specially on your point 1. For the time being he told me the following:

ROBERT is not restricting himself to receiving material from the probationers [S3iER], but is giving them tasks in co-ordination with ALBERT. The instruction not to impersonalise (i.e. the group's victories will be borne in mind (it is already being carried out).
Preliminary is bringing ROBERT's life (he is not married himself) into the processing [S3iER... of materials. She is not only in the know about her husband's work, but actually helps him in the processing.

There is no information about the XUL's [X] enquiry being finished. ROBERT is no less interested in a favourable outcome than we are and is trying to keep...

SERGEJ has brought in IDE [voz'][ii] but is not able to direct his work systematically as he sees him too rarely. Among SERGEJ's acquaintances are persons of great interest from [illegible] point of view. They are well informed and, although they do not say all they know, nevertheless they provide useful comments on the foreign policy of the COUNTRY [STOLON][ili]. Among them SERGEJ is studying Joseph BUKES and I. STONI.[iv] One, however, for the time being is avoiding SERGEJ. [Among his][ii] other serious targets SERGEJ has no opportunity for the [illegible] development of CRITIK for obtaining leads [N.VEKDI] (in my opinion too CRITIK is no good for anything else []).[v]

[Part II] 2. Decisive results in the business of signing up valuable people can be obtained in only two ways, first by transferring SERGEJ to CARTHAGE [KA2FAGI][v] and secondly by making use of the FELLOW COUNTRYMEN [ZEMLY,XI/v] for obtaining leads [N.VEKDI] (in my opinion too CRITIK is no good for anything else []).[v]

the KHERLA[vii] for the acquisition of a conspiscuous apartment and so on. Without the help of the FELLOWS COUNTRYMEN "we are completely powerless".

MAY's [vii][ix] opinion:

1. In this note SERGEJ has put in a nutshell[iv] his whole conception of the reasons why he has made no real advance and [his][a] approach to the next few months. His view that without KASELAGE and HELSMAN [KHERLA][ii] we are doomed to vegetate is mistaken. It is not true that everything of value is in KASELAGE and it is doubly untrue that without HELSMAN we are "powerless". I consider that in either case we shall have to have recourse to the help of the FELLOWS COUNTRYMEN, but they ought not to be the one and only base especially if you take into account the fact that in the event of KHERL[vii]'s [xi] being elected this source may dry up.

2. SERGEJ will not want to be in the Office [KONTOR] itself any more than now, excepting in cases when a great deal of material requiring urgent appraisal piles up.

3. SERGEJ ought to organise the work of the Editorial Office so as to have more time for developing existing connections and starting up new ones. He should not carry the whole Editorial Office on his own shoulders; then he could go to KASELAGE more, which is undoubtedly important.

[Part III]

4. The signing up of BARNES is obviously not only inadvisable but unrealisable; however, it is desirable to use him without signing him up.

SERGEJ helps me to decide operational questions connected with informational work[iv] and to brief workers [RABOTNIKI] and probationers [STAZHERY] on current tasks. Questions on work with probationers

Experience of the work of the OFFICE(KNOSSOS) during the six months which have elapsed since W.I.Y.'s(MAY) arrival has shown that he is incapable of coping with the tasks which are set him. Your instructions giving me responsibilities equal to MAY's can only partially make up for the shortcomings in the work. Conditions of enormous pressure of work in the line of cover; the necessity for security measures which do not allow frequent lengthy visits to the premises of the OFFICE; the great pressure of work on our permanent staff workers (KADROVIK) in the line of cover - make it impossible for me to take an adequate part in the direction of all lines of work.

I am making every effort to assist MAY in all matters. However, assistance with advice and recommendations cannot make up for the lack of adequate organizational side, meetings of fellow workers with him. In answer to my inquiry about the result of the meeting W.I.Y. replied that he knew just as little about W.I.Y.'s(TAM) work before the meeting with him. There are many examples of this sort of thing. In a conversation with W.I.Y. it came to light that [7 groups unrecovered] telegrams which
he signs. As for people, M.I. is utterly without the knack of dealing with them, frequently showing himself excessively abrupt and inclined to nag and too rarely finding time to chat with them. Sometimes our operational workers who work in the same establishment with him cannot get an answer to an urgent question from him for several days at a time. Our permanent staff (K.ROVCHIK), noting M.I.'s inexperience and remoteness from the details of everyday work, do not consider him an authoritative leader (RUKOVODITEL'), which has an effect on working discipline.

Part II Although since the receipt of your instructions I have formally known about work of the OFFICE (2 groups unrecovered) in fact it turns out quite differently. Opportunities for rendering assistance to M.I. (96 and so as a result of) inexperience and failure to understand that his appointment as leader does not signify recognition of his capability, but means that he has been given an opportunity to demonstrate his capabilities in this post, my cooperation cannot make a marked improvement in the position. The appointment as Master of the OFFICE in TIRE (175) of a worker without experience of work abroad is an experiment apparently necessitated by the absence of a qualified candidate.

In my opinion you must decide whether to send here some other experienced leader. M.I. will need to work under the supervision of such a permanent staff worker (K.ROVCHIK). Written instructions from you to M.I. cannot make up for lack of experience and knowledge. A worker who has no experience of work abroad cannot cope on his own with the work of directing the TIRE OFFICE.

Sergei [ii] in CARTAGE [iii] has made the acquaintance of Pancake [iv]; earlier Sergei had several times tried to [b contact] him personally and also through IDE [v], but the impression had been created that Pancake was avoiding a meeting. At the first conversation Sergei told him that he had very much desired to make his acquaintance since he greatly valued his work as a correspondent and had likewise heard flattering [2 groups unrecoverable]

Pancake to give us information. P. [vi] said that he had noticed our attempts to [b contact] him, particularly the attempts of IDE and of people of the Trust [vii], but he had reacted negatively fearing the consequences. At the same time he implied that the attempts at approach had been made with insufficient caution and by people who were insufficiently responsible. To Sergei's reply that naturally we did not want to subject him to unpleasant complications, Pancake gave him to understand that he was not refusing his aid but [b one should] consider that he had three children and did not want to attract the attention of the KHAB [viii]. To Sergei's question how he considered it advisable to maintain liaison P. [ix] replied that he would be glad to meet but he rarely visited [b TRIS] where he usually spent [5 groups unrecoverable].

His fear is primarily explained by his unwillingness to spoil his career. Materially he is well secured. He earns as much as 1500 dollars a month but, it seems, he would not be averse to having a supplementary income. For the establishment of business contact with him we are insisting on [1 group unrecoverable] reciprocity. For the work is needed a qualified [2 groups unrecoverable] CARTAGE. DEPARTMENT TO MAINTAIN CONTACT WITH THEODORE HALL (1944)

From: NEW YORK
To: MOSCOW
No: 1505

To: VICTOR

[11] visited Theodore HALL (111) 19 years old, the son of a furrier. He is a graduate of HARVARD University. A talented physicist he was taken on for government work. He was a GYMNASIUM (FIZIKUL'TURNIX) and conducted work in the Steel Founders' Union. According to NGU's account HALL has an exceptionally keen mind and a broad outlook and is politically developed. At the present time H. is in charge of a group at "CAMP-2" (SANTA-Fe). H. handed over to BEK a report about the CAMP and named the key personnel employed on ENGINEERS. He decided to do this on the advice of his colleague Saville SAX (SAX). SAX's mother is a FELLOW-COUNCIL (SAX) and works for RUSSIAN WAR RELIEF. With the aim of hastening a meeting with a competent person, H. on the following day sent a copy of the report by S. to the PLANT (SAX). RECEIVED. SAX received S. H. had to leave for CAMP-2 in two days' time. H. was compelled to make a decision quickly. Jointly with MAX, SAX gave BEK consent to feel out H. to assure him that everything was in order and to arrange liaison with him. H. left his photograph and came to an understanding with BEK about a place for meeting him. BEK met S. [group garbled] our automobile. We consider it expedient to maintain liaison with H. [group unreadable] through S. and not to bring in anybody else. MAY has no objection to this. We shall send the details by post.

LIBERAL[ii] has safely carried through the contracting of "Kh'yuS"[iii]. Kh'YuS is a good pal of METR's[iv]. We propose to pair them off and get them to photograph their own materials having given a camera for this purpose. Kh'YuS is a good photographer, has a large darkroom [KAMERA] and all the equipment but he does not have a Leica. LIBERAL will receive the films from METR for passing on. Direction of the probationers will be continued through LIBERAL, this will ease the load on him. Details about the contracting are in letter no. 8.

OSA[v] has agreed to cooperate with us in drawing in SHMEL'[vi] (henceforth "KALIBR" -- see your no. 5258[a]) with a view to ENORMOUS [ENORMOZ][vii]. On summons from KALIBR she is leaving on 22 November for the Camp 2 area[viii]. KALIBR will have a week's leave. Before OSA's departure LIBERAL will carry out two briefing meetings.

1 May 1975
According to a plan approved by Comrade PETROV on 26 October 1944, a special sub-residency [RECENZIUTURA] for the Fifth Line is being established within the framework of your residency. It will not be subject to the authority of the group [uncovered] right to give independent decisions [group uncoverable] questions relating to the operations of the agent network and to have direct communication with the GCT [uncovered].

You [6 groups uncoverable] of the sub-residency in accordance with instructions of the TU [uncovered], directing the work of the sub-resident and taking the necessary steps for the successful operation of the agent network and to have direct communication with the GCT [uncovered].

The following changes among the permanent staff workers [KUKHOV] of the sub-residency have been approved:

1. "IRISH [uncovered]" [uncovered], whom we are transferring from VANCOUVER, is appointed to help your deputy with the work in the port of SAN FRANCISCO.

2. "TURK [uncovered]" is being recalled home and "NORENA [uncovered]" is appointed senior man [STARSHIY] in PORTLAND. "YAKOV [uncovered]" whom we are transferring from OTZEO, is appointed second worker in PORTLAND.
3. "VOLKov" remains in LOS ANGELES. The permanent staff workers listed above, will for the time being work under cover of Inspectors of the Purchasing Commission. After the Merchant Fleet [VLAZNIK] has succeeded in settling up in the U.S.A. a special department for vessels sailing to foreign ports [RUDA ZAGRANICHNOO PLOVIDITEL'NIK], the permanent staff workers will be transferred to the strength of that department as Personnel Inspectors. In the meantime it is essential to ensure, through the management [VLAZNIK] of the Purchasing Commission, that the permanent staff workers are in a position which will give them just the right kind of influence to establish conditions favourable to [their] work in our line.

According to the plan approved by Comrade Petrov the sub-residency is charged with:

1. Development of counter-intelligence work among sailors of Soviet vessels to detect and suppress recruiting and anti-Soviet work by foreign intelligence services.

2. Detection of anti-Soviet and traitorous elements among the crews of vessels sailing to foreign ports.

Inform each permanent staff worker of these tasks, explaining them in detail and outlining practical measures. This activity will depend on the skillful co-ordination of the work of the ship and shore probationers [VLADIVOSTOK]. The work of the VLADIVOSTOK office is being reorganized to fit in with the tasks indicated, and for this purpose special instructions are also being issued by Comrade Petrov. Start carrying out the present instructions without waiting for "SHEP" arrival. See the permanent staff workers personally and give each one a specific briefing. Proceed with the preliminary selection [8 groups uncovered and unrecovered] candidates from amongst Soviet workers who have been vetted and who are connected with our vessels and port operations, with a view to employing them as contact men [VLADIVOSTOK] between the permanent staff workers and the ships' probationers' network. The object, once the appointment of these candidates has been confirmed, is to make greater use of ship's probationers and to succeed in meeting every single one of the ships' residents.

To require:

1. that each permanent staff worker should present to you a [monthly] report concerning the work.

2. that a report should be sent each month, addressed to [SDSA], concerning the work of the sub-residency and enclosing the reports of the permanent staff workers.

3. that the cover-names used should be reported immediately - explain [70 groups uncovered and unrecoverable]

In mid-October AL'BERT[ii] tried to get in touch with KNYaZ'[iii]. The latter's wife stated that KNYaZ' had left for the PROVINCES[iv] and would return after Christmas. At one time KNYaZ' was compelled to resign because of the dismissal of LUN'[v]s former deputy on the grounds of organisational and political disagreement.

As a result of the election, LUN'[v]s dismissal and the appointment of LOtsMAN[vi] in his place are not ruled out. Unasmuch as KNYaZ' is friendly with LOtsMAN[vii] (1 group unrecovered) he could count on a leading post in the BAKP[vii].

[Continued overleaf]
About five months ago, having proposed to AL'BERT the suspension of meetings with KNYaZ', you promised to give, subsequently, instructions on how AL'BERT would explain the break to KNYaZ'. AL'BERT considers that a complicated explanation is not necessary as KNYaZ' knew of AL'BERT's chronic illness and himself recommended the latter to go away to the COUNTRYSIDE[viii] or to ARIZCA for a few months

[34 groups unrecognizable]

use:

1. If LOFSMAN gets an interesting post it goes without saying that KNYaZ' must "get in on it" by using his friendship.

2. If not, then we can try notwithstanding to use KNYaZ' proximity to LOFSMAN to fix him up in a suitable establishment, still extracting, via him, interesting information which will (in any case) come LOFSMAN's way; or to send him to MI[xi] or to some other place in the PROVINCES, using the cover of a representative of a firm (according to AL'BERT the PROVINCIAL[xiv] experience of KNYaZ' allows him to count on any such appointment), and there to use him as the head of a private office (instead of, or with, CHEKE[x]).

If you agree I shall brief AL'BERT in this spirit.

We consider that KNYaZ' should be turned over to VADIM[xii] only after AL'BERT has ascertained his prospects.

To VICTOR.

According to advice from ROBERT, RICHARD's wife has complained recently about business financials in particular with business [BIZNES] since this would relieve them of heavy expenses.

ROBERT told RICHARD's wife, who knows about her husband's participation with us, that we would willingly have helped them and that in view of all the circumstances would not allow them to leave CARTHAGE [KARPAGEN]. ROBERT thinks that RICHARD would have refused a regular payment but might accept gifts as a mark of our gratitude for daughter's expenses which may come to up to two thousand a year.

ALBERT said to ROBERT that in his opinion we would agree to provide for RICHARD's daughter's education and definitely advised ROBERT, PILOT and the rest against attempting to offer RICHARD assistance.

OSA[ii] has returned from a trip to see KALIBR[iii]. KALIBR expressed his readiness to help in throwing light on the work being carried on at Camp-2[iv] and stated that he had already given thought to this question earlier. KALIBR said that the authorities of the Camp were openly taking all precautionary measures to prevent information about ENORMOUS\[v\] falling into Russian hands. This is causing serious discontent among the progressive [8\% workers] [17 groups unrecoverable]

the middle of January KALIBR will be in TYRE\[vi]. LIBERAL[vii], referring to his ignorance of the problem, expresses the wish that our man should meet KALIBR and interrogate him personally. He asserts that KALIBR would be very glad of such a meeting. Do you consider such a meeting advisable? If not, I shall be obliged to draw up a questionnaire and pass it to LIBERAL. Report whether you have any questions of priority interest to us.

KALIBR also reports: OPPENHEIM[viii] from California and KISTIAKOWSKY[ix] (MLAD's[x] report mentioned the latter) are at present working at the Camp. The latter is doing research on the thermodynamic process. Advise whether you have information on these two professors.

To VIKTOR[1].

We have been discussing his cover with ARNO[11]. ARNO's note about his setting up a laboratory was sent in postal despatch No. 8 of 24 October. As the subject on which to work ARNO chose "Problems of the Practical Application Under Production Conditions of the Process of Thermal Diffusion of Gases". In his note ARNO envisages concluding agreements with firms. At first he said that our help was not needed: now he explains that not more than two thousand will be needed. For our part we consider that ARNO does not give sufficient consideration to all the difficulties of organising a laboratory and has not, as yet, adequately worked out the chances of reaching agreements with interested firms - on the conclusion of agreements with which he is counting heavily. I suggested to him that he should study the possibilities in greater detail. The picture will not become clearer before the end of January. ARNO intends to open the laboratory in his own town.

[Continued overleaf]
A detailed report on KRON's office was sent in postal despatch No. 9. Let us know whether we should repeat this by telegraph.

LINZA and his wife have left for YaKOV's town. At the end of December LIBERAL will go there and will put LINZA in touch with YaKOV. Before making the move, LINZA and his wife visited the town and took an apartment, the address of which we reported in letter No. 9. LINZA sold his house and spent part of the money on the move. We gave him a once-for-all payment of 500; I consider that (24 groups unrecoverable)

"ALBERT's" OBSERVATIONS ON "ROBERT".

Nos.: 12, 13, 15, 16

FOUR-PART MESSAGE COMPLETE

In a special letter of 3 January, ALBERT[11] reports, while demonstrating to ROBERT[11] for a long time the advisability of setting up a separate group of two or three persons whose technical work (the delivery, filming and safeguarding of materials) would not be concentrated in ROBERT's apartment[11]. ALBERT explained that we are not proposing to deprive him of the direction of the people but we want to create the most secure possible conditions for the processing and safeguarding of materials, since, judging by well-known facts, the KGB[11] is probably interested in ROBERT's activities, and there is no guarantee that, as a result of some accident, materials he may have at his place when it happens will not fall into the hands of the KGB and that our sources would not be compromised in this way since at the moment everything is concentrated in one place.

After many friendly conversations on this subject ROBERT agreed in principle with our opinion.

TOP SECRET
BRIDE
It is possible that ALCERT thought he wanted to take away some of his people counting on getting better results and concluded from this that he was not altogether satisfied with his achievements. In ALCERT's opinion he succeeded in convincing ALCERT that our sole aim was organizational security. It must be said that in the basic of our workers' information ALCERT has been inclined to be critical and dubious of our ability to deal with the probationers [STILNERY]. Especially indicative from this point of view is the incident with [OTHER]...

[36 groups unrecoverable]

[ALCERT] (resumé): Our workers: if ALCERT proposed this ALCERT would undoubtedly reject it. Therefore ALCERT is trying to convince him of the necessity of setting up a small group whose technical work could be concentrated outside ALCERT's apartment, ALCERT retaining the general direction of it.

[Part II]

It has been decided to train ALCERT (acting) [vii] and [ALCERT] [vii] for the processing of materials in their own apartment. The couple [SUPERS] [vii] are conscientious, capable and fairly well disciplined. Notwithstanding, however, their devotion to the FELLOWSHIPS [ALCERT] [vii] and personally to ALCERT, the latter has from time to time complained of their caprices. Thus a few weeks ago [ALCERT] [xiv] told [ALCERT] [vii] and [PILOT] [vii] the couple that the couple was trying to get themselves free of us. ALCERT does not regard this seriously, but he no longer doubts that it costs ALCERT great pains to keep the couple and the other probationers [STILNERY] in check and to get good work out of them. Being their leader in the FELLOWSHIPS [ALCERT] has the opportunity to give them orders.

In ALCERT's opinion our workers would hardly manage to work with the same success under the FELLOWSHIPS [ALCERT] flag. It may possibly set up direct liaison with [ALCERT], ALERON and the rest, but it is doubtful whether we could secure from them the same results as ALCERT, who, constantly dealing with them, has many advantages over us. The whole group [xvi] of ALCERT's...

[36 groups unrecoverable]

[Part III] ALCERT reacted very unfavourably to the fact that ALCERT's time somebody else tried to part him and PILOT, that he did not believe in our orthodox methods and so on. As he said, it would not be hard to separate PILOT from him, but he...

[32 groups unrecoverable]

[PILOT] will not cool off towards our work. It goes without saying that PILOT is not so deeply devoted to us as ALCERT and [OTHER] are, for he comes from a well-to-do...

[Continued overleaf]
family of western (POISLED) (A) [all]. In AL'BERT's opinion, for PILOT's successful work we are in large measure indebted to ROBERT and DORA, who treat PILOT very solicitously, and in the near future we shall gain nothing at the cost of separating PILOT from ROBERT. AL'BERT is trying not to permit a joint business [BIZNES] like a farm or an aerodrome and has advised ROBERT to let PILOT work out this project himself if the latter is sure of success saying that in case of need we should render PILOT some financial support. In AL'BERT's opinion the project is unrealisable and later they will drop it.

ROBERT is displeased by our interference in his personal affairs, which is what he considers the farm to be. In his words, all these years he and the others have worked at high pressure and they want to acquire a farm rather for relaxation than as a cover. For a long time PILOT and DORA have been drawing up all kinds of plans relative to the farm.

[Part IV] In PILOT's opinion the farm will be a good pretext for his absence in CARTHAGE in case of dismissal, for having been dismissed he could hardly remain in CARTHAGE even temporarily without legal income. Seeing how much they were carried away by the idea AL'BERT did not consider it wise to insist leadership of this new group will have to be left to ROBERT.

That has been expounded does not mean that the mutual relations of AL'BERT with ROBERT are strained or that ROBERT does not want to obey us. ROBERT esteems AL'BERT highly and would not (2 groups unrecovered) any request of ours if AL'BERT insisted. AL'BERT does not doubt that ROBERT would introduce him to any of his people if AL'BERT requested, for organisationally ROBERT has become very close to us.

AL'BERT emphasises the soundness and timeliness of the award and the gift to ROBERT, who is pleased at our high evaluation [of him].

Note by the Office [KONTOR]. In the same letter AL'BERT addsuce short biographical data on ACORN and ZHENYA which we shall send by post.
This sentence contains a similar anacoluthon in the original. Presumably some part of the subordinate clause has been omitted.

SUPZUJ means "couple" in the sense of a married couple.

Presumably an error for "presence".

Further to No.2(a). Here is the gist of the enclosure to LOUIS's memorandum:

1. In "Memoranda on Conversations" LOUIS sets out the reactions to FROST's conversations with various persons with whom he and FROST came in contact. Opinions agree that FROST is not running the business competently, that he is making many empty promises, that he does not listen to advice and that he over-estimates his capabilities.

2. In "Summary Report" LOUIS reports about the various steps in the development of the company and FROST's mistakes which were connected with them. He considers it necessary soon to reorganize the company by setting up the following departments (in order of importance):

1. Production.
2. Selection of music to publish, of the artists and gramophone recordings.
3. Promotion.
4. Distribution.

Except for FROST LOUIS considers that none of the present personnel is adequate to deal with the tasks which confront each of these departments. In his opinion FROST should concentrate his attention on the problems of the second department; LOUIS himself, not knowing the technology of production, undertakes to head distribution. For promoting the products' ability of high order is required. At present the company is failing to deal with the problem of production and this means that business is at a standstill.

He and 4 qualified workers could solve the personnel problem.

SERGEJ's[ii] conversation with SIMA[iii] took place on [B% 4 January]. SIMA gives the impression of being a serious person who is politically well developed and there is no doubt of her sincere desire to help us. She had no doubts about whom she is working for and said that the nature of the materials in which we are interested pointed to the fact that it was our country which was in question. She was very satisfied that she was dealing with us and said that she deeply appreciated the confidence shown in her and understood the importance of our work.

SIMA's transfer to a new job was made at the insistence of her [D% superiors] [64 groups unrecoverable] generalizing materials from all departments [OTDELY]. SIMA will probably start work on 15 February.

On the basis of this preliminary information there is reason to assume that in her new job SIMA will be able to carry out very important work for us in throwing light on the activities of the KGB[iv]. The fruitfulness of her work will to a considerable extent depend upon our ability to organize correct and constant direction. It should be remembered that SIMA from an operational point of view is quite undeveloped and she will need time to learn conspiracy and to correctly gain an understanding of the questions which interest us.

A final decision on the question of direction and liaison can be taken [B% only] after she has moved to CARTHAGE[KARFAGEN][v] when it will be ascertained [B% specifically] what her new job consists of.

According to ROBERT's report, he may be presented with an opportunity of obtaining from RICHARD ROUBLE's appointment to RICHARD's post, as the latter will soon be appointed assistant secretary. (MAJ note: It is possible that this is a slip of the pen, for RICHARD and others are already assistants if [CA ROBERT]

(1 group unrecovered) NABOB's department, where he obviously can be promoted to the post of deputy.) ROBERT has repeatedly suggested that ROUBLE be turned over to him. According to our information he could get better results from ROUBLE than our line.

He suspects that ROUBLE is connected with us through other ZEMLYA-Cheskij channels. ALBERT emphasizes that ROUBLE was passive in the REJDER group although he was able to give valuable material. Some months ago ROBERT complaining that ROUBLE was hiding important documents from ZHENYA (his secretary).

If we are convinced of ROUBLE's good faith toward the ZEMLYA-Cheskij, ROBERT would like to take him into his group. ROBERT has always been against appointing two of our groups to one department and [DA instead asks] that our probationers from RICHARD's department be under his direction to avoid misunderstandings. In ALBERT's opinion, if ROUBLE is reliable from our point of view he ought to be turned over to ROBERT. ROBERT does not want to promote ROUBLE to RICHARD's post unless he takes him into his group; on the other hand he is not quite sure that he will be able to get ROUBLE into this post, as it is possible that somebody else is already earmarked for it.

Wire your decision by priority telegram not later than 21 January indicating the method of establishing contact between ALBERT and ROUBLE if you agree to including ROUBLE in ROBERT's group.

[Part I] With Post No. 1 were received "ZORA's" reports in which there are the following facts which deserve serious attention:

1. In the report of 2 February 1945 in 2 pages, she, describing the situation concerning the change of working location, names institutions of the "COUNTRY[STRANA]" by the code designations adopted by us in our telegraphic and written correspondence "CLUB[KLUB]", "BANK", "CABARET[KABARE]".

Without waiting for instructions from us after you reply to the questions which have been raised, immediately and in detail enlighten our liaison man about the serious mistakes he has committed in the work with "ZORA". As an ultimatum warn ZORA that if she does not carry out our instructions and if she undertakes steps without our consent, we shall immediately terminate all relations with her. Forbid ZORA to recruit all her acquaintances one after the other. Take all steps to see that ZORA's activities do not lead to serious political complications with the "COUNTRY". This example clearly illustrates not only the falling off in the Residency's work of controlling and educating probationers, but also the lack of understanding by our operational workers of the most elementary rules in our work.

Reference telegrams from MOSCOW Nos.823 and 824.

1. These telegrams arrived simultaneously with the President's message to the Prime Minister (No.718). The message shows that the President is still not inclined to support us in putting to the Russians all those questions, on which we consider it important to reach an agreement with them at this stage. From the Prime Minister's answer, transmitted in telegram No.912, you can see that he is urging the President to reconsider his position in the light of the proposals now submitted by Sir A. Clark KERR, after consultation with Mr. Harriman.

2. As soon as possible please see Mr. Stettinius and after that, if you can, the President and show them [2 groups unrecovered] to Molotov, suggested by Sir A. Clark Kerr and supplemented by my telegram No.2537. You should take part in the decision of these affairs. Use all arguments at your disposal to induce them to make a concerted effort with us on the basis of this draft. We are convinced that only on such a basis will it be possible to establish a foundation for the Commission's work. We believe that if we and the Americans together take a firm position, the Russians very likely will give way on some of the points.

3. If you do not succeed in persuading the President to accept Sir A. Clark Kerr's draft as it stands, in my opinion you can induce him to send Mr. Harriman

Paragraph 4 should read:

Further to our telegram No. 28[A]. As a result of "[D's A.'s][i] chat with "ALEG"[ii] the following has been ascertained:

1. ALE has been working with the NEIGHBORS[SOSEDII][iii] continuously since 1935.
2. For some years past he has been the leader of a small group of the NEIGHBORS' probationers[STALAGERY], for the most part consisting of his relations.
3. The group and ALE himself work on obtaining military information only. Materials on the "BANK"[iv] allegedly interest the NEIGHBORS very little and he does not produce them regularly.
4. All the last few years ALE has been working with "POL"[v] who also meets other members of the group occasionally.
5. Recently ALE and his whole group were awarded Soviet decorations.
6. After the Yalta Conference, when he had gone on to MOSCOW, a Soviet personage in a very responsible position (ALES gave to understand that it was Comrade VYSHETZKII) allegedly got in touch with ALE and at the behest of the Military NEIGHBORS passed on to him their gratitude and so on.

As a result of MATROS's accession to power, a considerable change in the foreign policy of the COUNTRY (STRANA) should be expected, first and foremost in relation to the USSR (see our No. 1961(a)). [7 groups unrecovered] In economic circles which in the past were not always able to exert decisive influence in questions of principle affecting foreign policy, since this

an organised campaign to "get rid of" MATROS and bring about a
c change in the policy of the COUNTRY towards the USSR. This campaign
was reflected in the first instance in the most reactionary section
of the press, which has welcomed MATROS's accession to power,
emphasising particularly that henceforth the foreign policy of the
COUNTRY will be decided, not independently by MATROS as it was in
LAPITAN\(^6\)\(^4\) day, but jointly with influential members of the Senate
and House of Representatives (including people hostile to us).\(^6\)
(Groups unrecovered) MATROS is maintaining friendly relations in the
Senate, not only with Democrats but also with Republicans, including
such extreme reactionaries as MACEL\(\text{\textit{ILLI\)}}\), BARKLEY and others.
The reactionaries are setting particular hopes on the possibility of
getting direction of the COUNTRY's foreign policy wholly into their
hands, partly because MATROS is notoriously untried and ill-
formed on these matters.

the press of the COUNTRY is conducting (3 groups unrecovered) of all
reactionary groups, political and economic, to influence public opinion
in the direction they desire.

\(^{[\text{Part III}]\)}
The leading protagonists of this campaign and its instigators are
representatives of the BANK\(^7\), the Army and the Navy (7 groups
unrecovered) after LAPITAN's death and the end of the war in EUROPE.

In newspaper circles in BABYLON\(^8\), CARTHAGE
\(^9\) and GABRIEL\(^4\) it is common knowledge, as has been confirmed to me
on separate (1 group unrecovered) by MACEL\(^5\), RICHARDS\(^5\),

The sources enumerated above said that one of the bitterest anti-

To prove his words KAPITALIST does not shrink from any chicanery. Thus for example one of his latest (1 group unrecovered) fabrications was that our delegation (allegedly) threatened to bolt out of the Conference if our proposal about the chairmanship was not accepted.

I read the newspapers during the long journey and, in so doing, read mainly about questions of foreign policy. In all these international affairs RIOTS pays great heed to the advice of the above-mentioned representatives of the LINE, the Army and the Navy. KAPITALIST in talking with me forecast that one should expect a even greater intensification of the press campaign (9 groups unrecovered) the campaign are at present pursuing a double aim: to get NASHC firmly into their clutches and at the same time to obtain [22 groups unrecoverable]

Therefore (8 groups unrecovered) aid demanded at the present time in [16 groups unrecovered] economic aid [2 groups unrecovered] supplementary credit. To quote the above-mentioned sources, the foreign policy of the COUNTRY at the present time is moving in the direction of full [59 groups unrecoverable]

In a recent conversation with me, the Director of the Institute of Pacific Affairs, CARTER, in the main confirmed RICHARD'S statements about the COUNTRY'S policy in OKINAWA (which have been reported to you (5 groups unrecoverable).

The codeword “Venona” has come to signify the 37-year American and allied program to read and exploit Soviet intelligence messages collected in the 1940s. The several thousand messages revealed to Western analysts that Stalin’s agents had stolen some of the most sensitive wartime secrets, including plans for the atomic bomb. The program, through painstaking cryptanalysis and detective work, succeeded in breaking up many of the Soviet espionage nets in the United States and elsewhere.

Director of Central Intelligence John Deutch declassified the Venona program in July 1995. This volume has been published in conjunction with the conference on Venona co-sponsored in Washington by the National Security Agency, the Central Intelligence Agency, and the Center for Democracy in October 1996. The volume is intended to be a handbook for scholars interested in Venona. It includes important US Government documents outlining the American response to Soviet espionage, as well as 99 of the most significant and revealing Soviet messages translated by Western analysts.

Mr. Robert Louis Benson serves with the Office of Security of the National Security Agency. A former US Air Force officer, Mr. Benson earned his B.A. in history at the University of Wisconsin. He has written and lectured extensively on Venona. Dr. Michael Warner is Deputy Chief of the Central Intelligence Agency History Staff. Dr. Warner received his Ph.D. in history from the University of Chicago and served as an analyst in CIA’s Directorate of Intelligence before joining the Center for the Study of Intelligence in 1992.
