## US State Dept Travel Advisory

The US Department of State currently recommends US citizens RECONSIDER TRAVEL to South Africa due to COVID-19. Exercise increased caution in South Africa due to crime and civil unrest. Consult its website via the link below for updates to travel advisories and statements on safety, security, local laws and special circumstances in this country.

## Passport/Visa Requirements

US citizens should make sure their passport will not expire for at least 30 days after they enter the country even if they do not intend to stay that long. They should also make sure they have at least 2 blank pages in their passport for any entry stamp that will be required. A visa is not required as long as you do not stay in the country more than 89 days. Currently South Africa requires that children travel with birth certificates, valid passports, and (if not traveling with both of the parents on the birth certificate), a parental consent letter from both of the parents.
